Community Goals

The Community Goals identify the community’s direction for the future and are intended to generate local pride and enthusiasm about the future of the community, thereby leading citizens and leadership to act to ensure that the plan is implemented.

- Economic Development
- Housing
- Natural and Cultural Resources
- Community Facilities and Services
- Intergovernmental Coordination
- Transportation
- Land Use

Needs and Opportunities

The Needs and Opportunities element consists of the locally agreed upon list of needs and opportunities the community has identified as high priority and intends to address. Each of these priority needs, and opportunities must be followed-up with corresponding implementation measures in the Community Work Program.

- Develop a strategy for appropriate economic development of our community.
- Maximize the promotion of our agricultural and tourism assets, including all outdoor activity/recreational opportunities.
- Improve public access to our three rivers.
- Upgrade our hospital facilities and services or construct a new hospital for our community.
- Promote development of our existing, unfinished subdivisions prior to the development of new subdivisions.

Community Work Program

The Community Work Program lays out the specific activities the community plans to undertake during the next five years to address the priority Needs and Opportunities. This includes any activities, initiatives, programs, ordinances, or administrative systems to be put in place to implement the comprehensive plan.

- Brief description of the activity;
- Timeframe for initiating and completing the activity;
- Responsible party for implementing the activity;
- Estimated the cost (if any) for implementing the activity;
- Funding source(s), if applicable; and
- Need or Opportunity addressed by the activity, if applicable.

Do you know your Comprehensive plan?

The Comprehensive plan is not regulation that binds the citizens of Gilmer County, rather it is a guide to local decision making. The Joint Comprehensive Plan for Gilmer County and the Cities of Ellijay and east Ellijay 2014-2034 has been prepared in accordance with the Rules of Georgia Department of Community Affairs, Minimum Standards and Procedures for Comprehensive planning. The Joint Comprehensive Plan consists of three core elements (i.e., Community Goals, Needs and Opportunities, and Community Work Program) and an additional two elements (i.e., Capital Improvements Element and Land Use Element) as required by Section 110-12-1-02(1) of the Minimum Standards and Procedures.

PLANNING

- The planning process emphasizes preparation of plans that help local governments address their immediate needs and opportunities while moving toward realization of their long-term goals. To maintain qualified local government certification, and thereby remain eligible for selected state funding and permitting programs, each local government must prepare, adopt, maintain and implement a comprehensive plan.

COMMUNITY & ECONOMIC DEVELOPMENT

- A healthy community which is diversified among both the industrial and commercial sectors, which enhances the quality of life for all our citizens, and which prudently manages the community’s resources:
  - Adequate and affordable housing for all citizens
  - Growth Preparedness
  - Regional Identity
  - Appropriate Business and Employment Options
  - Educational Opportunities
  - Adequate Infrastructure
  - Downtown Development

COMMUNITY PARTICIPATION

- The purpose of the Community Goals element is to lay out a road map for the community’s future, developed through a public process of involving community leaders and stakeholders in making key decisions about the future of the community.

Natural and Cultural Resources
