- East Ellijay Adoption Resolution
INTRODUCTION

PURPOSE

The purpose of a Joint Comprehensive Plan is to coordinate planning on interjurisdictional issues and provide a policy framework for guiding long range and day-to-day decision making for local government officials and administrators.

This document is a partial update to the 2004 – 2025 Joint Comprehensive Plan for Gilmer County and the Cities of Ellijay and East Ellijay which was adopted in October 2004. This partial update is intended to serve as a policy guide during the interim period between full updates to the Joint Comprehensive Plan as it helps the community identify critical issues and opportunities which have either remained or arisen since 2004. The next full update will be due in October 2014.

This update is prepared according to the Georgia Department of Community Affairs (DCA), Office of Planning and Quality Growth "Requirements for a Partial Update to the Local Government Comprehensive Plan, March 2007."

REQUIRED COMPONENTS

Four components are required for this partial plan update and are briefly described below.

1. Analysis of Consistency with the State's Quality Community Objectives.

The DCA Office of Planning and Quality Growth has created an assessment tool to assist local governments in evaluating their progress toward becoming sustainable and livable communities. This tool was used at the beginning of the update process.

2. Analysis of Areas Requiring Special Attention

Areas requiring special attention are defined by the DCA as:

A. Areas of significant natural or cultural resources
B. Areas where rapid development or change of land uses are likely to occur.
C. Areas where the pace of development has and/or may outpace the availability of community facilities and services
D. Areas in need of redevelopment and/or significant improvements to aesthetics or attractiveness
E. Large abandoned structures or sites
F. Areas with significant infill development opportunities
G. Areas of significant disinvestment, levels of poverty, and/or substantially higher than average levels for the community as a whole.

3. Identification of Issues and Opportunities

A list of issues and opportunities in Gilmer County was developed by assessing the "Quality Community Objectives," analyzing the "Areas of Special Attention," and seeking input from the
Gilmer County Comprehensive Plan Update Stakeholder Group. The items are grouped into eight major topics as defined in Georgia's Local Planning Requirements.

4. Updated Implementation Program

The updated implementation program includes the following:

A. **Policies** – A list of policies has been prepared to provide ongoing guidance and direction to local officials. These policies are designed to address the issues and opportunities identified in part 3 of the plan update.

B. **Report of Accomplishments** – This report identifies the current status for each activity in the current (2008 – 2012) Short Term Work Program for each jurisdiction. The report identifies if the proposed activity has been completed, is currently underway, has been postponed, or has not been accomplished.

C. **2009 – 2013 Short Term Work Program** – The Short Term Work Program identifies specific implementation actions the community intends to take during the 2009 – 2013 time frame of the planning period. This includes any ordinances, administrative systems, community improvements or investments, financing arrangements, or other programs or initiatives to be put into place to implement the plan.

**THE PUBLIC PROCESS**

This plan update has been prepared with the substantial involvement and input from local elected officials from each jurisdiction, city and county staff, various public and private agencies and groups, and members of the general public. A stakeholder group of local government officials, staff, other community leaders, and interested citizens was formed to assist in the planning process. Public meetings were held on the following dates:

- April 13, 2009: First Stakeholder Group Work Session
- June 2, 2009: First Joint Public Hearing
- June 2, 2009: Second Stakeholder Group Work Session
- July 7, 2009: Third Stakeholder Group Work Session
- August 11, 2009: Second Joint Public Hearing

Gilmer County and the Cities of Ellijay and East Ellijay approved transmission of the draft Update for state-mandated regional and state reviews on the following dates: August 14, August 17, and August 11, respectively. Subsequent to notification that the draft partial update met with satisfactory regional and state reviews, the partial update was adopted by each jurisdiction on the following dates:

- Gilmer County: **November 20, 2009**
- City of Ellijay: **November 16, 2009**
- City of East Ellijay: **November 10, 2009**
Part 1: Analysis of Consistency with the State's Quality Community Objectives

This section reviews the community's current policies, regulations, activities, and development patterns for consistency with Georgia's "Quality Community Objectives" (QCOs). The DCA's Office of Planning and Quality Growth created this format to assist local governments in evaluating their progress towards sustainable and livable communities. While "yes" and "no" responses are useful as a quick measure of local status, the supplementary comments also clarify details, perhaps making distinctions between governmental jurisdictions within the same county boundary.

Traditional Neighborhoods

Traditional neighborhood development patterns should be encouraged, including use of more human scale development, compact development, mixing of uses within easy walking distance of one another, and facilitating pedestrian activity.

Partial Update of the Joint Comprehensive Plan for Gilmer County and the Cities of Ellijay and East Ellijay

### Infill Development

Communities should maximize the use of existing infrastructure and minimize the conversion of undeveloped land at the urban periphery by encouraging development or redevelopment of sites closer to the downtown or traditional urban core of the community.

<table>
<thead>
<tr>

<tr>
<td>4. We have areas of our community that are planned for nodal development (compacted near intersections rather than spread along a major road).</td>
<td>N</td>
<td>N</td>
<td>N</td>
<td>To some degree, development along SR 515 could be considered nodal due to the limited number of access points to the highway.</td>
</tr>
<tr>
<td>5. Our community allows small lot development (5,000 square feet or less) for some areas.</td>
<td>N</td>
<td>Y</td>
<td>Y</td>
<td>Planned Development Districts allow for small lot development under certain conditions in Ellijay and East Ellijay.</td>
</tr>
</tbody>
</table>
### Sense of Place

Traditional downtown areas should be maintained as the focal point of the community or, for newer areas where this is not possible, the development of activity centers that serve, as community focal points should be encouraged. These community focal points should be attractive, mixed-use, pedestrian-friendly places where people choose to gather for shopping, dining, socializing, and entertainment.

<table>

<th>Ellijay</th>
<th>East Ellijay</th>
<th>Comments</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. If someone dropped from the sky into our community, he or she would know immediately where he or she was, based on our distinct characteristics.</td>
<td>N</td>
<td>Y</td>
<td>N</td>
<td>Downtown Ellijay is unique. Apple orchards in the county might also give a general indication of location. The majority of the land in the county is either mountainous or rural/agricultural. The landscape is very typical of the North Georgia region, but not necessarily specific to Gilmer County.</td>
</tr>
<tr>
<td>2. We have delineated the areas of our community that are important to our history and heritage, and have taken steps to protect those areas.</td>
<td>N</td>
<td>Y</td>
<td>N</td>
<td>Ellijay has a local historic district. There is a published historic resources survey for Gilmer County which includes Ellijay and East Ellijay. Outside of the historic district protection mechanisms for these resources do not exist.</td>
</tr>
<tr>
<td>3. We have ordinances to regulate the aesthetics of development in our highly visible areas.</td>
<td>Y</td>
<td>Y</td>
<td>N</td>
<td>In Ellijay, only in the historic district.</td>
</tr>
<tr>
<td>4. We have ordinances to regulate the size and type of signage in our community.</td>
<td>N</td>
<td>Y</td>
<td>Y</td>
<td></td>
</tr>
<tr>
<td>5. We offer a development guidebook that illustrates the type of new development we want in our community.</td>
<td>N</td>
<td>N</td>
<td>N</td>
<td>This is under consideration for downtown Ellijay.</td>
</tr>
<tr>
<td>6. If applicable, our community has a plan to protect designated farmland.</td>
<td>N</td>
<td>N</td>
<td>n/a</td>
<td></td>
</tr>
</tbody>
</table>
Alternatives to transportation by automobile, including mass transit, bicycle routes, and pedestrian facilities, should be made available in each community. Greater use of alternate transportation should be encouraged.

<td>N</td>
<td>N</td>
<td>N</td>
<td></td>
</tr>
<tr>
<td>6. We have a plan for bicycle routes through our community.</td>
<td>Y</td>
<td>Y</td>
<td>Y</td>
<td>A regional bicycle and pedestrian plan is complete for the county and cities. Signage has been posted on some roads.</td>
</tr>
<tr>
<td>7. We allow commercial and retail development to share parking areas whenever possible.</td>
<td>N</td>
<td>N</td>
<td>Y</td>
<td></td>
</tr>
</tbody>
</table>
### Regional Identity

Each region should promote and preserve a regional "identity," or regional sense of place, defined in terms of traditional architecture, common economic linkages that bind the region together, or other shared characteristics.

<table>
<thead>
<tr>
<th></th>
<th>Gilmer Co.</th>
<th>Ellijay</th>

<td>Tourism in Gilmer County is characterized by weekly cabin rentals, vacation homes, and eco-tourism. The Georgia Apple Festival is also a popular event that draws tourists from around the region.</td>
</tr>
<tr>
<td>6.</td>
<td>Y</td>
<td>Y</td>
<td>Y</td>
<td></td>
</tr>
</tbody>
</table>

### Heritage Preservation

The traditional character of the community should be maintained through preserving and revitalizing historic areas of the community, encouraging new development that is compatible with the traditional features of the community, and protecting other scenic or natural features that are important to defining the community's character.

<table>
<thead>
<tr>
<th></th>
<th>Gilmer Co.</th>

<tr>
<td>3.</td>
<td>n/a</td>
<td>Y</td>
<td>n/a</td>
<td>Ellijay has a historic preservation ordinance and design guidelines for the historic district and in-town neighborhoods. An ordinance is needed to address &quot;demolition by neglect.&quot;</td>
</tr>
</tbody>
</table>
### Open Space Preservation

New development should be designed to minimize the amount of land consumed, and open space should be set aside from development for use as public parks or as greenbelts/wildlife corridors. Compact development ordinances are one way of encouraging this type of open space preservation.

<table>
<thead>
<tr>
<th>Comments</th>

<td>N</td>
</tr>
<tr>
<td>3. We have local land conservation program, or we work with State or national land conservation programs, to preserve environmentally important areas in our community.</td>
<td>Y</td>
<td>N</td>
<td>N</td>
</tr>
<tr>
<td>4. We have a conservation subdivision ordinance for residential development that is widely used and protects open space in perpetuity.</td>
<td>Y</td>
<td>Y</td>
<td>N</td>
</tr>
</tbody>
</table>

### Environmental Protection

Environmentally sensitive areas should be protected from negative impacts of development, particularly when they are important for maintaining traditional character or quality of life of the community or region. Whenever possible, the natural terrain, drainage, and vegetation of an area should be preserved.

<table>
<thead>
<tr>
<th>Comments</th>

<td>Y</td>
<td>Y</td>
<td>Y</td>
</tr>
</tbody>
</table>
Each community should identify and put in place the pre-requisites for the type of growth it seeks to achieve. These might include infrastructure (roads, water, sewer) to support new growth, appropriate training of the workforce, ordinances and regulations to manage growth as desired, or leadership capable of responding to growth opportunities and managing new growth when it occurs.

### Appropriate Businesses

The businesses and industries encouraged to develop or expand in a community should be suitable for the community in terms of job skills required, long-term sustainability, linkages to other economic activities in the region, impact on the resources of the area, and future prospects for expansion and creation of higher-skill job opportunities.

<table>

<td>4.</td>
<td>Y</td>
<td>Y</td>
<td>Y</td>
<td>There are a limited number of professional positions. This often keeps college graduates who grew up in the community from living in their hometown after graduation.</td>
</tr>
</tbody>
</table>
## Housing Choices

A range of housing size, cost, and density should be provided in each community to make it possible for all who work in the community to also live in the community (thereby reducing commuting distances), to promote a mixture of income and age groups in each community, and to provide a range of housing choice to meet market needs.

<td>N</td>
<td>N</td>
<td>N</td>
<td></td>
</tr>
</tbody>
</table>

# Regional Solutions

Regional solutions to needs shared by more than one local jurisdiction are preferable to separate local approaches, particularly where this will result in greater efficiency and less cost to the taxpayer.

<table>

</table>
Part 2: Analysis of Areas Requiring Special Attention

As part of the plan update process, existing land use patterns and trends in Gilmer County, Ellijay, and East Ellijay were evaluated to identify how development might impact that existing natural and cultural resources as well as community facilities, services, and infrastructure. In 2003 and 2004, during the time of the planning process for the 2004 – 2025 Joint Comprehensive Plan, Gilmer County was experiencing significant growth. Since that time, the economy has changed and growth has slowed, but development is still occurring, particularly as infrastructure expansions and improvements occur. Following is a list of areas requiring special attention that were identified. These areas are illustrated on maps on pages 17 and 18.

1. Areas of significant natural and cultural resources, particularly where these are likely to be intruded upon or otherwise impacted by development.
   - Ellijay, Cartecay, and Coosawattee Watersheds
   - Ellijay, Cartecay, and Coosawattee Rivers
   - All primary and secondary trout streams bisecting private property. (Cox Creek, Flat Creek, Mountaintown Creek, and Tails Creek are impaired by fecal coliform bacteria.)
   - Areas with significant slopes and elevations. (Note: Elevations in private ownership, above 2,200 feet, having slopes of 25 percent or greater for at least 500 feet horizontally already are protected.)
   - Southern Highroads Trail
   - Ellijay Historic District
   - Ellijay City Cemetery
   - Resources related to Cherokee Heritage
   - Farmland and orchards
   - Rainbow Lake and other flood control lakes
   - Fort Hetzel
   - Historical Communities such as Whitepath, Cartecay, and Oak Hill
   - The Old Federal Road

2. Areas where rapid development and change in land use are likely to occur.
   - GA 515/Appalachian Development Highway
   - Area surrounding Clear Creek Middle School
   - Yukon Road
   - Sunlight Road (Future Industrial Park)
   - Simmons Road/Eller Road
   - Highway 382 to 515 Connector
   - Future location of new hospital (presently the location is unknown)
3. **Areas where the pace of development has and/or may outpace the availability of community facilities and services, including transportation.**
   - GA 515/Appalachian Development Highway (limited water and sewer availability)
   - Highway 52 East
   - Intersection of River Street/1st Avenue/Highway 515/Industrial Boulevard

4. **Areas in need of redevelopment and/or significant improvements to aesthetics or attractiveness (including strip commercial corridors).**
   - Old Highway 5 South (between Townhome Drive and Orchard Road)
   - Old Highway 5 North (near 515)
   - South Main Street along the Coosawattee River
   - Sunlight Road/Roundtop Road Area

5. **Large abandoned structures or sites, including those that may be environmentally contaminated.**
   - None at this time

6. **Areas with significant infill development opportunities (scattered vacant sites).**
   - Most opportunities are in or immediately adjacent to the cities.

7. **Areas of significant disinvestment, levels of poverty, and/or substantially higher than average levels for the community as a whole.**
   - Orchard Road
   - Corbin Hill
   - Old Highway 5 in Ellijay
   - Chatsworth Highway
   - Sunlight Road/Roundtop Road
Part 3: Identification of Issues and Opportunities

The following list of issues and opportunities in Gilmer County was developed by assessing the "Quality Community Objectives," analyzing the "Areas of Special Attention," and seeking input from the Gilmer County Comprehensive Plan Update Stakeholder Group. The items are grouped into eight major topics as defined in Georgia's Local Planning Requirements. The topics are as follows:

- Population
- Economic Development
- Housing
- Natural and Cultural Resources
- Community Facilities
- Land Use
- Intergovernmental Coordination
- Transportation

Following each list of issues and opportunities are various implementation measures that are recommended to resolve issues and take advantage of opportunities that are critical for the future development of Gilmer County and its municipalities.

A. POPULATION

Issues

1. In terms of total population, Gilmer County ranked 68th out of the 159 counties in Georgia in the year 2000, but it ranked 4th in terms of population growth between 1990 and 2000. During this time it had a growth rate of 75.5%, which was much higher than the rates for the NGRDC region and the state. Approximately 90% of the population growth was due to net migration rather than natural increase (i.e. the difference between the number of births and the number of deaths), while just 66% of Georgia’s population growth was due to net migration.
2. The area is expected to experience stable growth over the next decade, but at slightly lower rates than during the 1990s. This growth will continue to place a heavy demand on housing and community facilities and services.
3. Education attainment in Gilmer County has increased steadily over the past 20 years. The percentage of persons in Gilmer County with high school diplomas or college degrees is very similar to the figures for the NGRDC region, but is still substantially lower than the figures for Georgia. As education levels increase, Gilmer County will become more competitive in attracting industries that require a more skilled and educated labor force.

Opportunities

1. In 2009, Dalton State College opened an extended campus site in the old Gilmer County Library in downtown Ellijay. This should help improve education levels in the community by making access to a college education more convenient.
2. Retirees produce positive economic impacts. Studies indicate that the economic impact of one retiree household is equal to 2.5 to 3.7 factory jobs.

Dalton State College now has an "Extended Campus" in downtown Ellijay.
B. ECONOMIC DEVELOPMENT

Issues
1. The service and retail sectors are growing in Gilmer County, while the manufacturing sector is declining.
2. Job growth has not kept pace with population growth in Gilmer County.
3. In terms of the type of jobs which are available, many employment opportunities exist in minimum wage range jobs, particularly in the retail and service industries. Because of a lack of professional and technical jobs in the community, some residents commute for higher-paying jobs.
4. In the past, the labor force of Gilmer County, Ellijay, and East Ellijay lacked sufficient skills and education to attract high technology and capital intensive industries.

Opportunities
1. Highway 515 provides convenient access to and from the area.
2. The abundant natural resources in Gilmer and surrounding counties make the area appealing to residents, tourists, and second home buyers.
3. Improved visibility and public access to the county's three rivers would aid in promoting the area to both tourists and future residents.
4. Tourism, second home development, and retirement development can have positive impacts on the economy.
5. A full service business and technology park and/or industrial park will aid in the recruitment of new businesses.
6. A new hospital facility will stimulate development and re-development in the area where it is located and could attract retirees to the area.
7. The recent opening of a branch of Dalton State College in downtown Ellijay provides an excellent and convenient opportunity for residents who want to further their education.
8. Downtown Ellijay is an attractive, pedestrian friendly shopping area.
9. Gilmer County was named an "Entrepreneur Friendly Community" by the State of Georgia in 2008. The designation indicates the community has worked to develop an environment that is welcoming to small business and entrepreneurs

Implementation Measures
1. Through a committee of local officials, developers, and interested citizens, develop design guidelines for the Highway 515 corridor which will promote a positive visual image of the community.
2. Work with the Georgia Department of Economic Development to promote the community to statewide development interests.
3. Continue programs at the schools to improve educational levels.
4. Pursue the development of a business and technology park, including adequate infrastructure.
5. Seek funding to develop a downtown master plan for the City of Ellijay to address traffic, parking, landscaping, signage, historic preservation, pedestrian facilities, and housing. This plan should address both residential and commercial development in downtown.
7. Continue to expand the streetscape program in Ellijay.

Downtown Ellijay an attractive and pedestrian friendly. A master plan would address additional residential and commercial development downtown.
C. HOUSING

Issues

1. Housing is fairly inexpensive when compared with neighboring counties, so housing prices is not a significant reason why portions of the workforce reside in other counties. The cost of new housing in Gilmer County is less than that of surrounding counties.
2. In 2000, the jobs to housing balance in Gilmer County (excluding seasonally vacant homes) was 0.69 jobs per housing unit which implies that there is more housing in Gilmer County than there are jobs.
3. There is an adequate supply of higher-end housing for vacation home/retiree market; however, many residents are of low to moderate income, and the supply of housing for this income range is limited.

Opportunities

1. In 2005, the City of Ellijay completed a housing assessment for the downtown area. This assessment can be used to identify areas for possible CDBG funding of housing rehabilitation.
2. A neighborhood stabilization grant has been funded within the region which will assist low-moderate income families to acquire foreclosed homes.
3. Two recent developments in the county have been designed to preserve open space: Falling Waters and Anderson Creek Retreat.

Implementation Measures

1. The provision of infrastructure is one of the primary ways the local governments can assist developers of affordable housing. Local governments should continue to seek CDBG funding to supplement the infrastructure in targeted areas.
2. Continue to enforce building codes and subdivision regulations.
3. Periodically review subdivision standards to ensure adequacy.
4. Using the 2005 housing assessment as a guide, apply for CDBG funding for housing rehabilitation in targeted areas.
5. Assist the Regional Development Center in implementing the neighborhood stabilization grant.

Anderson Creek Retreat is a fairly recent development in Gilmer County. It is a 1,500 acre community "designed to protect wildlife habitat, water quality and open space."
Source: http://www.andersoncreekretreat.com

There is an adequate supply of higher-end housing in Gilmer County.
D. NATURAL AND CULTURAL RESOURCES

Issues

1. Gilmer County’s natural resources are some of its greatest assets. Those resources which are especially vulnerable include the following:
   - water supplies and watersheds;
   - rivers, trout streams, and creeks;
   - steep slopes and protected mountains; and
   - farm land and forest land.

2. The community’s cultural resources are vulnerable. Over forty historic structures have been demolished in the past 10 years. Others suffer from "demolition by neglect." Irreplaceable archaeological resources relating to Cherokee history are also vulnerable to development.

Opportunities

1. Two effective ways to protect the area’s valuable resources will be through (1) the enforcement of existing regulations and (2) public education.
2. The three rivers in Gilmer County (Coosawattee, Cartecay, and Ellijay) are essentially inaccessible to the majority of residents and tourists. Two canoe launch areas are currently being developed, but additional improvements in both visibility and access would greatly benefit the community.
3. Efforts are underway to better document Cherokee resources in North Georgia.
4. The Northwest Georgia Regional Water Resources Partnership is a multi-jurisdictional agency that provides a variety of resources related to water issues.

Implementation Measures

1. Investigate the effectiveness and applicability of open space subdivision design and consider this type of design in any housing projects in which local governments participate.
2. Implement the recommendations of the Total Maximum Daily Load plans for impaired streams.
3. Support the efforts of the Coosawattee River Alliance.
4. Support the efforts of the Historic Preservation Commission to protect the historic fabric of downtown Ellijay.
5. Pursue public awareness and education of the ethnic culture of the Cherokee Indians of North Georgia.
6. Through a committee of local officials, developers, and interested citizens, develop design guidelines for the Highway 515 corridor which will promote a positive visual image of the community.
7. Improve access to the three rivers in Gilmer County.
8. Consider ways to address "demolition by neglect."
E. COMMUNITY FACILITIES AND SERVICES

Issues

1. Gilmer County has made tremendous progress in terms of expanding community facilities and services since 2004. Among the many projects it has completed in the last five years are a new courthouse, a new Emergency Management headquarters, several new fire/EMS stations, a new public library, several connector roads, and airport improvements.
2. Both Cities have also completed large capital projects since 2004. The City of Ellijay built a new public safety facility and the City of East Ellijay built a new city hall.
3. A new hospital is planned for the community, but its location has yet to be determined.
4. The expansion of water and sewer service as well as the construction of new roads will have a major impact on the location of new development.
5. Additional park and recreation facilities are still needed throughout the community.

Opportunities

1. Gilmer County continues to be proactive in terms of providing excellent public facilities for the community.
2. The location of the new hospital will have a significant impact on development and redevelopment.

Implementation Measures

1. Continue to make system-wide water and sewer improvements.
2. Support the development of a new hospital.
3. Prepare and implement a Parks and Recreation Master Plan.
4. Develop the park at Clear Creek School.
5. Provide additional multi-purpose trails throughout the community.
6. Seek grant funding for recreation projects when appropriate.
F. LAND USE

Issues

1. The County and Cities are fortunate in that there are currently no large abandoned commercial or industrial sites in the community. Structures which were vacant in 2004, such as the old Wal-Mart building, are currently occupied.
2. Strip commercial development is occurring along Highway 515. This type of development pattern is going to drastically reduce the highway’s capacity because more traffic signals and lower speed limits will be requested. In addition, without some form of design guidelines for signs and landscaping, auto-oriented commercial development has the potential to detract from the natural beauty of the community.

Opportunities

1. Downtown Ellijay serves as is a commercial hub for the City of Ellijay. It contains a variety of commercial uses such as restaurants, retail shops, and professional offices. Because of recent streetscaping efforts, it offers a pedestrian-friendly environment.
2. Redevelopment along Old Highway 5 South should be encouraged as an alternative to Highway 515. Low intensity commercial and light industrial development would be appropriate. New development should be conducted in a manner which will allow for the future widening of Old Highway 5.
3. The mountainous topography found in much of Gilmer County limits the opportunities for traditional neighborhood development and other compact forms of urban development; however, this type of development can be encouraged in areas where public water and sewer infrastructure exists. Infill opportunities exist in limited areas within the Cities of Ellijay and East Ellijay.
4. An area which is experiencing growth is in the vicinity of the new school campus on Clear Creek Road. A variety of residential developments and some light commercial development is likely to occur there when the school campus is developed, and especially when water and sewer service is extended to the area.
5. A new hospital is planned for Gilmer County. Its location has yet to be determined, but it will impact growth in its immediate vicinity. Medical and other hospital support business are likely to locate near the new hospital.

Implementation Measures

1. Through a committee of local officials, developers, and interested citizens, develop design guidelines for the Highway 515 corridor which will promote a positive visual image of the community.
2. Continue to enforce environmental regulations.
3. Investigate the effectiveness and applicability of open space subdivision design and consider this type of design in any housing projects in which local governments participate.
4. Support the use of package treatment plants and other alternative on-site wastewater treatment systems in subdivision developments in the county and incorporated cities.
5. Provide information to property owners of farmland, forest land, and environmentally sensitive land about tax incentives for leaving property undeveloped.
6. Prepare and implement a Parks and Recreation Master Plan.
G. INTERGOVERNMENTAL COORDINATION

Issues

1. Local governments are affected by the actions of adjacent governments and the State.

Opportunities

1. Local government partnerships with the Chamber of Commerce, Ellijay Better Hometown Program, the Board of Education, and Gilmer County Family Connections are important to the overall success of the community.
2. Relationships with other counties and cities are for the common good.
3. Local governments are required to resolve issues through the preparation of official Service Delivery Agreements.
4. Developments of Regional Impact review is a means to mitigate differences between governments because of impacts caused by development activity.

Implementation Measures

1. Require that rezoning actions be consistent with the Future Land Use Maps in the Comprehensive Plan.
2. Discourage making capital investments in rural areas that are not slated for urban/suburban intensity growth in the Future Land Use Plan.
3. Work with state level economic development agencies to attract new businesses to the area.
4. Jointly approach the Department of Transportation regarding needed road improvements.
5. Support efforts to improve water quality in the community.

Preparation of this partial update was guided by input from a stakeholder group of individuals representing Gilmer County and the Cities of Ellijay and East Ellijay.
H. TRANSPORTATION

Issues

1. Gilmer County and its municipalities are making steady progress in improving the road network. In particular, Simmons Road and Eller Road have improved connectivity and helped alleviate congestion at certain intersections.
2. There are few transportation alternatives in the area. Generally, local residents must rely on their automobiles to meet their travel needs.
3. There are not enough sidewalks or bicycle facilities in the cities to provide good connectivity between neighborhoods, schools, parks.

Opportunities

1. A Long Range Transportation Plan has been prepared and is being implemented.
2. A Regional Bicycle and Pedestrian Plan has been prepared.
3. An Airport Master Plan has been prepared and is being implemented.

Implementation Measures

1. Continue to implement the adopted Long Range Transportation Plan and pursue system-wide improvements, including new connector roads and alternate routes, to improve the level of service on the roads in the community.
2. Evaluate setback requirements, access, and zoning activities for properties on roads which will be widened in the future.
3. Complete renovations of the airport and continue to update the Airport Master Plan.
4. Maintain a positive working relationship with GNRR.
5. Continue to utilize the Local Assistance Road Program for resurfacing projects.
6. Support implementation of the regional bicycle and pedestrian plan.
7. Seek funding to develop a downtown master plan for the City of Ellijay to address traffic, parking, pedestrian facilities, and housing.
8. Pursue funding for and develop additional pedestrian facilities to include sidewalks, trails, and river crossings.
9. Continue to advocate for Blue Ridge Scenic Railroad excursions to Ellijay.
10. Develop and implement a Pedestrian and Bicycle Facilities Plan for Ellijay and East Ellijay.
Part 4: Updated Implementation Program

The following implementation program identifies the specific policies, programs, and projects to be undertaken to implement the recommendations contained in the Issues and Opportunities report. The implementation program consists of the following sections:

- Policies
- Report of Accomplishments related to the 2008 – 2012 Short Term Work Programs for each jurisdiction
- 2009 – 2013 Short Term Work Program for each jurisdiction

A. POLICIES

Policies are adopted to provide ongoing guidance to local officials when making decisions relating to the comprehensive plan, including achieving overall goals for the community and addressing the list of issues and opportunities. These policies were obtained from the 2004 – 2025 Joint Comprehensive Plan and are organized into the following seven areas:

1. Economic Development
2. Housing
3. Natural and Cultural Resources
4. Community Facilities and Services
5. Land Use
6. Intergovernmental Coordination
7. Transportation

Economic Development

Economic Development Goal: A healthy economy which is diversified among both the industrial and commercial sectors, which enhances the quality of life for all of our citizens, and which prudently manages the community’s resources.

Policy 1: Growth Preparedness. Support an on-going, effective, and coordinated economic development program which will promote Gilmer County throughout the state and nation.

Policy 2: Regional Identity. Refine and promote the community’s identity to take advantage of the unique aspects of its character.

Policy 3: Appropriate Business and Employment Options. Support the retention and expansion of existing business and industry and attract and recruit businesses and industries which are compatible with the community’s long-term goals and which provide quality jobs for our citizens.

Policy 4: Educational Opportunities. Provide a more skilled and educated labor force to attract business and industry to the area.

Policy 5: Adequate Infrastructure. Promote new growth in areas where necessary infrastructure is already in place or is planned in the future.

Policy 6: Downtown Development. Promote downtown Ellijay as a center for retail and tourist activities and implement measures which will enhance the charm and the value of the downtown area.

Housing

Housing Goal: Adequate and affordable housing for all citizens.

Policy 1: Quality Housing. Promote quality housing construction and subdivision development.
Policy 2: Housing Opportunities. Promote the development of housing in a wider range of prices and types to insure that all who work in the community have a viable option for living in the community. Affordable housing that is designed for long-term sustainability and stable value should be encouraged.

Policy 3: Infill Housing and Neighborhood Preservation. Stimulate infill housing in existing neighborhoods.

Natural and Cultural Resources

Natural and Cultural Resources Goal: To conserve, protect, and wisely manage the area’s environmental, natural, and historic resources.

Policy 1: Open Space. New development should be designed to minimize the amount of land consumed and open space should be set aside from development for use as buffers, parks, greenbelts, or wildlife corridors.

Policy 2: Environmental Protection. Air quality and environmentally sensitive areas should be protected from negative impacts of development. Environmentally sensitive areas deserve special protection, particularly when they are important for maintaining traditional character or quality of life of the community. Whenever possible, the natural terrain, drainage, and vegetation of an area should be preserved.

Policy 3: Regional Cooperation. Regional cooperation should be encouraged in setting priorities, identifying shared needs, and finding collaborative solutions, particularly where it is critical to success of a venture, such as the protection of shared natural resources.

Policy 4: Heritage Preservation. The traditional character of the community should be maintained through preserving and revitalizing historic areas, encouraging new development that is compatible with traditional features, and protecting other scenic and natural features that are important to defining the community’s character.

Community Facilities

Community Facilities Goal: Public Facilities which have the capacity, and which are in place when needed, to support and attract growth and development and maintain and enhance the quality of life of all residents in the community.

Policy 1: Regional Solutions. Regional solutions should be used when needs are shared by more than one local jurisdiction, particularly where this will result in greater efficiency and less cost to the taxpayer.

Policy 2: Water Supply and Treatment. Assure an adequate and economical supply of water for the growth needs of the county and incorporated cities.

Policy 3: Sewerage System and Wastewater Treatment. Provide public sewer service to growth areas as consistent with the Future Land Use Plan.

Policy 4: Solid Waste Management. Manage solid waste activities in a manner consistent with State requirements and the Joint Solid Waste Management Plan.

Policy 5: Public Safety. Provide excellent emergency management and law enforcement services commensurate with the unique needs of the area.

Policy 6: Public Health Facilities. Support improvements in the area’s health care system.

Policy 7: Recreation. Provide recreation facilities and programs that meet both the active and passive recreational needs of community’s residents.

Policy 8: Government Facilities. Expand and/or construct government facilities necessary to meet the demands of the growing population.

Policy 9: Education Facilities. Provide excellent education facilities and support coordination between local governments and the school system to assure new school locations are consistent with the Future Land Use Plan.
Policy 10: Cultural and other Public Facilities. Support the expansion of cultural facilities and programs and other public facilities in keeping with population growth.

Land Use

Land Use Goal: Land resources which have been allocated for uses that will accommodate and enhance economic development, natural and historic resources, community facilities, and housing and will protect and improve the quality of life of residents and visitors.

Policy 1: Community Character and Environmental Quality. The positive qualities of the natural environment, historic and cultural resources, and scenic characteristics which contribute to Gilmer County’s character should be preserved.

Policy 2: Residential Development. Future residential development should be compatible with the physical limitations of the land and the established land uses in the area. In addition, the transition in size, density, site development, and other characteristics should be compatible from one district to another.

Policy 3: Agriculture and Forestry. Prime agricultural and forest lands should be protected through the use of incentives, land use regulation, and other means.

Policy 4: Parks and Recreation. Plan for the development of parks and open spaces in locations throughout the community.

Policy 5: Reuse of Historic Buildings. The adaptive reuse of historic facilities and structures in the county and incorporated cities should be encouraged.

Policy 6: Sense of Place. Community focal points are important and should be encouraged. Such areas should be attractive, mixed-use, pedestrian-friendly places where people choose to gather for shopping, dining, socializing, and entertainment. Downtown Ellijay is a focal point which should be promoted.

Policy 7: Traditional Neighborhoods. Traditional neighborhood patterns should be encouraged, including the use of human scale development, mixing uses within easy walking distance of one another, and facilitating pedestrian activity.

Policy 8: Infill Development. The development or redevelopment of sites closer to the downtown or traditional urban core of Ellijay and East Ellijay should be encouraged.

Policy 9: Infrastructure. Development should be encouraged in areas which are targeted for growth on the future land use map and which either have public services or where public services can be extended at a reasonable cost.

Policy 10: Strip Commercial Development. Strip commercial development should be discouraged and compact development in activity nodes should be encouraged to reduce traffic congestion and efficiently utilize public services.

Policy 11: Neighborhood Commercial Development. Appropriate neighborhood commercial development should be planned to serve the needs of major residential areas in the county and cities.

Policy 12: Transitional Uses. An orderly transition between commercial areas and single family residential areas should be promoted through transitional uses such as multi-family residential and natural buffer areas.

Policy 13: Industrial Development. Industrial development should be encouraged in areas which have compatible soils, drainage, and other environmental characteristics, and which can be efficiently and effectively provided with adequate utilities and infrastructure with minimum costs to both industry and government.

Policy 14: Government Facilities. The downtown area of Ellijay should be promoted as the primary location for government facilities.

Intergovernmental Coordination
**Intergovernmental Coordination Goal:** Positive, cooperative, and effective relationships between Gilmer County, the City of Ellijay, the City of East Ellijay, and other public agencies and organizations.

**Policy 1: Local Coordination.** Promote effective coordination between the County and City governments and the County School Board, the Water and Sewer Authority, and Economic Development Authority.

**Policy 2: Joint Planning.** Continue the joint comprehensive planning approach to ensure collaborative planning and decision-making.

**Policy 3: Consistency with the Future Land Use Plan.** Use the adopted Joint Comprehensive Plan as a guide for decision-making.

**Policy 4: State Coordination.** Pursue effective relationships with key State agencies and departments.

**Policy 5: Cooperative Planning.** Promote cooperative planning efforts throughout the community.

**Transportation**

**Transportation Goal:** To achieve a modern, well-funded multi-modal transportation network that is efficient, safe, and protects the environment while enhancing the area's economic development.

**Policy 1: Adequate Transportation System.** A good transportation network is vital for the physical, social, and economic well-being of Gilmer County and the cities of Ellijay and East Ellijay; therefore transportation planning should be a priority for the community.

**Policy 2: Transportation Alternatives.** Alternatives to transportation by automobile, including mass transit, bicycle routes, and pedestrian facilities, should be made available and greater use of alternate transportation should be encouraged.

APPENDIX
TRANSMITTAL RESOLUTION

09-065

RESOLUTION TO TRANSMIT THE PARTIAL PLAN UPDATE, 2025 COMPREHENSIVE PLAN TO THE NORTH GEORGIA REGIONAL COMMISSION AND THE GEORGIA DEPARTMENT OF COMMUNITY AFFAIRS

WHEREAS, the Gilmer County Board of Commissioners, in conjunction with the Cities of Ellijay and East Ellijay, have completed the Partial Plan Update, including an updated Short-Term Work Program; and

WHEREAS, this document was prepared according to the Standards and Procedures for Local Comprehensive Planning effective May 1, 2005 and established by the Georgia Planning Act of 1989, and the required public hearing was timely advertised as a joint public hearing, and was held August 11, 2009.

BE IT THEREFORE RESOLVED, that the Gilmer County Board of Commissioners does hereby transmit the Partial Plan Update of the 2025 Comprehensive Plan to the North Georgia Regional Commission and the Georgia Department of Community Affairs for official review.

ADOPTED by the Gilmer County Board of Commissioners on August 27th, 2009.

Attest

Diana Buttram, County Clerk

Mark E. Chastain, Chairman

Gilmer County BOC

Mayor, City of East Ellijay
RESOLUTION
09-092
TO ADOPT
THE PARTIAL PLAN UPDATE (INCLUDING A SHORT TERM WORK PROGRAM) AND CAPITAL IMPROVEMENTS ELEMENT FOR GILMER COUNTY AND THE CITIES OF ELLIJAY AND EAST ELLIJAY

WHEREAS the Georgia Planning act of 1989 requires local governments which assess impact fees to update their Short Term Work Programs, Capital Improvement Element, and other relative documents on an annual basis; and,

WHEREAS Gilmer County and the cities of Ellijay and East Ellijay have for that reason prepared a required Partial Plan Update of their adopted Comprehensive Plan, including a new five-year Short Term Work Program; and,

WHEREAS the Ellijay-Gilmer County Water and Sewerage Authority has for that reason prepared updated documents relative to current and proposed capital improvements projects in its service area and impact fee financial information for its service area; and,

WHEREAS these updates and documents have been prepared in accordance with the Minimum Planning Standards and Procedures for Local Comprehensive Planning established by the Georgia Planning Act of 1989 and other applicable rules; and,

WHEREAS Gilmer County and the Cities of Ellijay and East Ellijay held a joint Public Hearing on August 11, 2009 for which customary and adequate public notice was given; and,

WHEREAS The Department of Community Affairs has reviewed these documents and finds them in compliance with the Minimum Standards and the Northwest Georgia Regional Commission reviewed these documents with positive findings;

THEREFORE BE IT RESOLVED that the Gilmer County Board of Commissioners hereby adopt the Partial Plan Update of the Comprehensive Plan, including the Short Term Work Program, 2009-2013 for Gilmer County as amendments to the Joint Comprehensive Plan for Gilmer County and the Cities of Ellijay and East Ellijay 2004-2024; and furthermore, adopts updates prepared by the Ellijay-Gilmer County Water and Sewerage Authority, namely the Ellijay/Gilmer County Capital Improvements Project Updates for July 1, 2009 to June 30, 2014 for both water and sewerage, and the 2008-2009 Impact Fee Financial Reports for both water and sewerage.

Adopted this 20th Day of November, 2009.

BY:

Mark E. Chastain, Chairman
Gilmer County Board of Commissioners

ATTEST:

Diana Buttram, County Clerk
Gilmer County Board of Commissioners
A RESOLUTION TO ADOPT
THE PARTIAL PLAN UPDATE (INCLUDING A SHORT TERM WORK PROGRAM)
AND CAPITAL IMPROVEMENTS ELEMENT
FOR GILMER COUNTY AND THE CITIES OF ELLIJAY AND EAST ELLIJAY

WHEREAS the Georgia Planning Act of 1989 requires local governments which assess impact fees to update their Short Term Work Programs, Capital Improvement Element, and other relative documents on an annual basis; and,

WHEREAS Gilmer County and the cities of Ellijay and East Ellijay have for that reason prepared a required Partial Plan Update of their adopted Comprehensive Plan, including a new five-year Short Term Work Program; and,

WHEREAS the Ellijay-Gilmer County Water and Sewerage Authority has for that reason prepared updated documents relative to current and proposed capital improvements projects in its service area and impact fee financial information for its service area; and,

WHEREAS these updates and documents have been prepared in accordance with the Minimum Planning Standards and Procedures for Local Comprehensive Planning established by the Georgia Planning Act of 1989 and other applicable rules; and,

WHEREAS Gilmer County and the Cities of Ellijay and East Ellijay held a joint Public Hearing on August 11, 2009 for which customary and adequate public notice was given; and,

WHEREAS The Department of Community Affairs has reviewed these documents and finds them in compliance with the Minimum Standards and the Northwest Georgia Regional Commission reviewed these documents with positive findings;

THEREFORE BE IT RESOLVED that the Ellijay Mayor and Council hereby adopt the Partial Plan Update of the Comprehensive Plan, including the Short Term Work Program, 2009-2013 for Ellijay as amendments to the Joint Comprehensive Plan for Gilmer County and the Cities of Ellijay and East Ellijay 2004-2024; and furthermore, adopts updates prepared by the Ellijay-Gilmer County Water and Sewerage Authority, namely the Ellijay/Gilmer County Capital Improvements Project Updates for July 1, 2009 to June 30, 2014 for both water and sewerage, and the 2008-2009 Impact Fee Financial Reports for both water and sewerage.

Adopted this 16th Day of November, 2009.

Al Hoyle, Mayor
City of Ellijay

ATTEST:

Tatiana Foltz, Clerk
RES. NO. 09-07

A RESOLUTION TO ADOPT
THE PARTIAL PLAN UPDATE (INCLUDING A SHORT TERM WORK PROGRAM)
AND CAPITAL IMPROVEMENTS ELEMENT
FOR GILMER COUNTY AND THE CITIES OF ELLIJAY AND EAST ELLIJAY

WHEREAS the Georgia Planning act of 1989 requires local governments which assess impact
fees to update their Short Term Work Programs, Capital Improvement Element, and other
relative documents on an annual basis; and,

WHEREAS Gilmer County and the cities of Ellijay and East Ellijay have for that reason prepared
a required Partial Plan Update of their adopted Comprehensive Plan, including a new five-year
Short Term Work Program; and,

WHEREAS the Ellijay-Gilmer County Water and Sewerage Authority has for that reason
prepared updated documents relative to current and proposed capital improvements projects in its
service area and impact fee financial information for its service area; and,

WHEREAS these updates and documents have been prepared in accordance with the Minimum
Planning Standards and Procedures for Local Comprehensive Planning established by the
Georgia Planning Act of 1989 and other applicable rules; and,

WHEREAS Gilmer County and the Cities of Ellijay and East Ellijay held a joint Public Hearing
on August 11, 2009 for which customary and adequate public notice was given; and,

WHEREAS The Department of Community Affairs has reviewed these documents and finds
them in compliance with the Minimum Standards and the Northwest Georgia Regional
Commission reviewed these documents with positive findings;

THEREFORE BE IT RESOLVED that the East Ellijay Mayor and Council hereby adopt the
Partial Plan Update of the Comprehensive Plan, including the Short Term Work Program, 2009-
2013 for East Ellijay as amendments to the Joint Comprehensive Plan for Gilmer County and the
Cities of Ellijay and East Ellijay 2004-2024; and furthermore, adopts updates prepared by the
Ellijay-Gilmer County Water and Sewerage Authority, namely the Ellijay/Gilmer County Capital
Improvements Project Updates for July 1, 2009 to June 30, 2014 for both water and sewerage,
and the 2008-2009 Impact Fee Financial Reports for both water and sewerage.

Adopted this 10th Day of November, 2009.
