Introduction

Introduction to the Joint Comprehensive Plan for Chattooga County, Town of Lyerly, City of Menlo, City of Summerville, and Town of Trion.

Located in the Northwestern portion of the state of Georgia, Chattooga County covers approximately 314 square miles of Land and water. Named after the Chattooga River that flows through the county, Georgia's 93rd county is rich in native American history and is the place where the Sequoyah developed a written alphabet for the Cherokee language. Chattooga County has over 95 acres of land protected by state and federal lands used for hunting, camping, and residential, including a portion of the Chattahoochee National Forest, and Georgia Department of Natural Resources' Rich Mountain Wildlife Management area and the Cohutta. Originally inhabited by Creek Indians and then Cherokees, Chattooga county is greatly known for its native American History.

Figure 1: aerial photo of downtown Summerville, GA Showing the Chattooga County Courthouse.

Recreational Destinations and Outdoor Attractions

With being a part of the Armuchee District of the Chattahoochee-Oconee National Forest and including portions of Johns Mountain and Taylor Ridge, Chattooga County has grown into a destination that can appease any age group as a destination for historical, recreational and outdoor options for all. With 19,573 acres of the Chattahoochee-Oconee National Forest located in Chattooga County, there is access to multiple trails and an array of Parks and recreational centers within the unincorporated areas of the County as well as the established municipalities for those in the community to share. There are multiple parks, recreational centers, and complexes, as well as historical and cultural resources for curious minds to explore and learn. Each community embraces its beauty and works to ensure access is available for residents and tourist.

Community events engage with the public regularly and enhances the involvement of each individual. Though Chattooga County is known for its slow-paced régime, the county is home to continuous activities regardless of the season. Family and fun are important to Chattooga County as well, as it showcases its rich culture and history with a variety of programs for all ages. A list of some of the major recreational destinations is as follows; Paradise Gardens, Sloppy H. Floyd State Park, canoe/kayak trail, Pinhoti Trail, Dowdy Park,

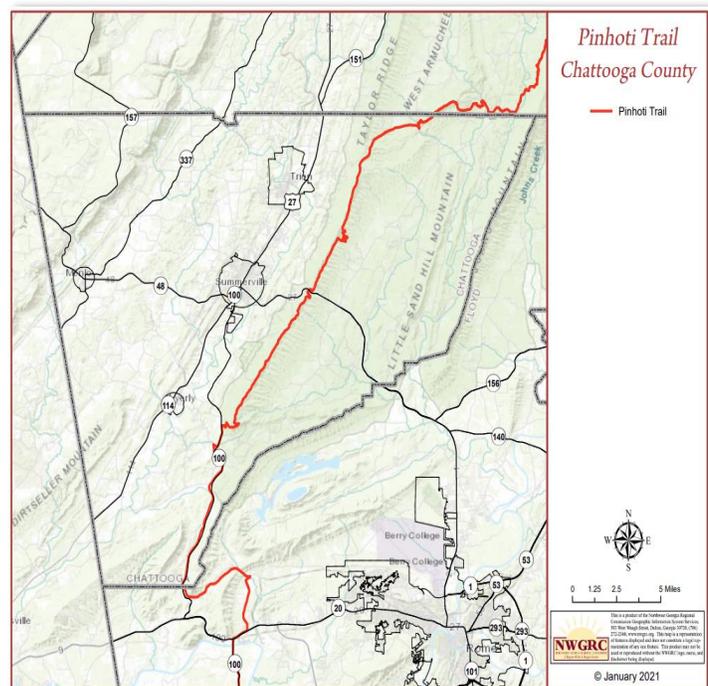

Figure 2: Map of Pinhoti Trail in Chattooga County, GA

Couey House and Willow Springs Park just to name a few. Each embraces its own individual charm with beautiful views and rich historical values.

The Lower Chattooga River Canoe/Kayak Trail is located in Northwest Georgia and begins in Chattooga County at the launch contiguous to the bridge on Lyerly Dam Road, in the town of Lyerly, Georgia. The trail is 7.5 miles and is usually a 4 to 6-hour journey contingent upon water levels. The Town of Lyerly is responsible for the operation of the trail that was developed in 2012 as a way to increase tourism being that the population is about 540 people. The trail has since been developed additionally and now provides parking areas at its two existing launch sites. This has created a positive effect on the community and the number of visitors continues to grow yearly.

Willow Springs Park; Preceding our documented history, this water is part of the dolomite aquifer and is formed as ground water erodes through the very permeable dolomite and limestone basis of this area and show that in order for the water to flow at a rate of 420 gallons per minute. Due to the many underground paths that the spring encompasses, there is a historic story of young Cherokee Indians diving into the spring at this site and swimming underground to surface in a pond 1700 feet northward

When part of the Cherokee Nation, the grounds encompassing this spring were procured by an early pioneer, John Fluker Beavers, in the Cherokee Land Lottery of 1832. At the point when the Georgia State Legislature shaped Chattooga County out of segments of Walker and Floyd districts in 1838, the spring assumed a significant part in finding the new area seat at this site. General Beavers offered the free utilization of the spring water for individuals and their animals if the judges would buy his territory and find the province government here. For a long time, the spring served individuals and remained a significant and picturesque social event spot.

The spring was as of late reestablished. In spite of the fact that the old homes were lost some time in the past, the spring was again permitted to stream uninhibitedly, and willow trees were brought back to the site which Octavia Jones Cleghorn had named after her youth home-Willow Spring.

Figure 3: The Couey House built in the mid 1840's - The house was then given to the City of Summerville for the gratification and education for many generations to come.

WHY WE PLAN

Comprehensive planning is an important management tool for promoting a strong, healthy community. Comprehensive planning provides a vision that describes and focuses on the future of the community as well as the efforts implemented by local governments to cater to the emerging needs, issues and opportunities for community improvement while serving the people. The plan can be used to promote orderly and rational development and introduce programs to benefit individuals from youth to senior age in Chattooga County, the Town of Lyerly, City of Menlo, City of Summerville and Town of Trion while preserving the natural, historical and cultural resources.

The comprehensive plan provides the tools to become more certain about where development will occur, what it will be like, when it will happen, and how the costs of development will be met. It provides the community to achieve the development patterns it desires, such as: traditional neighborhoods, infill development creating sense of place, providing transportation alternatives, permitting mixed uses, protecting natural resources, and accommodating economic growth.

Planning also helps the county and its municipalities invest their money wisely into infrastructure such as roads, water and sewer, schools, park and green space, and other facilities to maintain and improve the quality of life for the residents of Chattooga County.

PURPOSE

The *Joint Comprehensive Plan* represents the community's Vision, goals, policies, key needs, and opportunities that the community intends to address, and an action plan for highlighting the necessary tools for implementing the Comprehensive Plan. In addition, it outlines desired development patterns and supporting land uses with future development Map for Chattooga County, Town of Lyerly, City of Menlo, City of Summerville, and Town of Trion.

The *Joint Comprehensive Plan* has been prepared in the accordance with and serves the purpose of meeting the intent of the Georgia Department of Community Affairs Chapter 110-12-1, Minimum Standards and Procedures for Comprehensive Planning (effective March 1, 2014, updated October 1, 2018). The Joint Comprehensive Plan consists of three core elements (i.e., Community Goals, Needs and

Figure 5: People gathering to view the Smithsonian Exhibit in Summerville, GA

Figure 6: Ribbon Cutting with Chattooga County Chamber and City of Summerville leaders at the Historic Summerville Depot. Photo Courtesy of the City of Summerville

Figure 7: Historic Finster house at Paradise Gardens. Harold Finster, considered one of the most significant artist in Georgia History, created the complex as an outdoor museum and garden to display his work.

opportunities and Community Work Program) and an additional four elements (i.e.: Economic Development Element, Land Use Element, and the Rural Broadband Element).

The Georgia Department of Community Affairs (DCA) Minimum Standards and Procedures for Local Comprehensive Planning emphasize preparation of plans that help local governments address their immediate needs and opportunities while moving toward realization of their long-term goals. To maintain qualified local government certification, and thereby remain eligible for selected state funding and permitting programs, each local government must prepare, adopt, maintain, and implement a comprehensive plan as specified in these standards and procedures.

The comprehensive plan is not regulation that binds the citizens of Chattooga County rather it is a guide to local decision-making.

Figure 8: Chattooga River

Figure 9: Mount Vernon Mills. Trion, GA

SCOPE

The Joint Comprehensive Plan provides a fine-tuned list of needs and opportunities, future development maps with character areas, narratives on housing and transportation of each character area depicted. The plan also contains an implementation program listing strategic capital projects aimed at addressing the community's, previously mentioned, needs and opportunities. For the future development maps, the Land Use narrative presents strategies for implementation

COMMUNITY PARTICIPATION AND INVOLVEMENT

Creating a functional Comprehensive Plan begins with defining a common vision for the future development of the Community. A Community Vision is the overall image of what the community wants to be and how it wants to look at some point in the future. It is the starting point for creating a plan and actions to implement the plan. A successful visioning process requires meaningful participation from a wide range of community stakeholders. Chattooga County residents, property owners, business owners and other stakeholders contributed to the production of the Comprehensive Plan. Due to the participation involved in developing the plan, the Comprehensive Plan should generate local pride and enthusiasm about the future of Chattooga County and thereby encourage citizens to remain engaged in the development process and ensure that the county and each city implement the plan.

Steering and Stakeholder Committees

Every five years there is an update of the Joint Comprehensive plan for the Town of Lyerly, City of Menlo, City of Summerville, Town of Trion and Chattooga County that provides a discussion of future growth and how local government agencies can plan for it. Joint meetings held with the steering and stakeholder committees allow feedback from members who represent the two towns, two cities and county. A diverse group of elected officials, professional staff from each city and county, as well as representatives of private sector organizations such as communications and agriculture formed a collaborative committee to build the foundation and framework of this plan. The stakeholder committee held a total of five joint meetings facilitated by the Northwest Georgia Regional Commission (sign-in sheets found in Appendix F). Over the course of these meetings, committee members

Figure 10: Public and Stakeholder Meeting Announcement.

discussed and assessed the needs and opportunities of Chattooga County as well as how to best engage the community in order to ensure the steering committee's views aligned with the general public's perspective. After four steering committee meetings a stakeholder's meeting was held in order to gather more input from a group of stakeholders based upon the needs and opportunities, maps, survey results, vision statements and goals identified by the steering committee. The steering committee met once again soon after the stakeholder's meeting to discuss the outcome and input gathered, and how to address the feedback that was received from the stakeholders.

COMMUNITY OUTREACH SURVEY

The Northwest Georgia Regional Commission Survey entitled "The Future and Growth of Chattooga County" was uploaded on May 5, 2020 and ran continuous until it was closed on January 15, 2021. The total number of responses were 229. 206 with a 100% completion rate and 23 with a 90% completion rate (meaning that all surveys were 90% completed with no unanswered questions). Survey Gizmo was utilized as the software provider due to it being user friendly, smartphone friendly and the NWGRC website, as the host for the period the survey remained active. With the utilization of the NWGRC website, we were able to create a direct URL www.nwgrc.org/chattooga-survey-flyer to the online survey to make it easily accessible for individuals that discovered the survey via flyer or newspaper articles.

The surveys were disbursed in several mediums which included online, email blasts to the membership of the Chattooga County Chamber of Commerce, Chattooga county school system, [REDACTED], Local government staff as well as various civic groups. Social Media platforms such as Facebook and the Chattooga County Chamber's social media were also used to further the digital outreach as a grass roots approach by much of the steering committee.

WHY WE PLAN

- Set a new standard for protecting natural and cultural resource
- Promote desired patterns of Development
- Facilitate economic development
- Accommodate a range of housing and transportation options
- Prioritize capital expenditures
- Enhance quality of life

NWGRC
Presents:

**THE GROWTH AND FUTURE OF
CHATTOOGA COUNTY
2021-2025
Survey**

Chattooga County and the town of Lyerly, City of Menlo, City of Summerville and Town of Trion have joined together to complete a joint Comprehensive Plan. Comprehensive planning is an important management tool for promoting a strong and healthy community. The planning process emphasizes preparation of plans that help local governments address their immediate needs and opportunities while moving toward the realization of their long-term goals. This plan will help guide growth and development within Chattooga County over the next five years. By providing your anonymous opinion to the following questions, your feedback will assist with providing pertinent information as we plan for Chattooga County's Future.

TAKE SURVEY

THE JOINT COMPREHENSIVE PLAN FOR CHATTOOGA COUNTY AND THE TOWN OF LYERLY, CITY OF MENLO, CITY OF SUMMERVILLE AND THE TOWN OF TRION

FINAL PUBLIC & STAKEHOLDER MEETING

**THURSDAY FEBRUARY 11, 2021
6 PM TO 7 PM**

CHATTOOGA COUNTY CIVIC CENTER
44 GEORGIA HWY 48
SUMMERVILLE, GA 30747

REMINDEES:

- For everyone's safety, a limited number of seating will be available inside of the Civic Center.
- Please wear a mask at all times.
- Sanitation stations will be set up
- Please maintain 6ft distance and continue to practice social distancing.

PUBLIC HEARINGS

The initial public hearing was held at the Chattooga County Civic Center in Summerville, GA and was accessible virtually via zoom on **September 10, 2020**. An article was published in the Summerville newspaper to ensure public awareness of the plan, the process, and the understanding that public input is not only preferred but, in fact, key in creating an effective plan.

The final public hearing was also held at The Chattooga County Civic Center on **Thursday February 25, 2021**. The hearing was well attended, and ads were published in the Summerville newspaper to inform Chattooga County Citizens about the comprehensive plan as well as how they may be able to get involved in the process.

Chattooga County Joint Comprehensive Plan first Initial Virtual Public Hearing

For: Chattooga County, Town of Ayuda, City of Meigs, City of Summerville and Town of Trion
presenting information on the purpose, process and the updates of the Comprehensive Plan.

- Physical location available to the public. Please wear a mask at all times and practice social distancing.
- Physical Location:** Chattooga County Civic Center
44 Highway 48
Summerville, Georgia
- To Access Public Hearing Virtually,** please visit <https://zoom.us/j/83942300010> and enter the meeting ID and password below.
- Meeting ID:** 717 6850 3879
Password: 5m3m6k
- We're implementing a limited number seating for residents needs of the civic center. Please maintain a 6 ft. distance from the next person.
- Thursday September 10, 2020 11:00AM**

HOW TO USE THIS PLAN

JOINT NARRATIVES

The purpose of this plan is to implement a vision for growth and development by guiding and implementing land use and development policy Chattooga County and the Town of Lyerly, City of Menlo, City of Summerville, and the Town of Trion. Each jurisdiction addresses each of the elements (described below) in joint sections that focus on each element as it relates to the entire county. This is a slightly different format from the previous 2016-2020 Joint Comprehensive plan to create a more individualized approach for each government

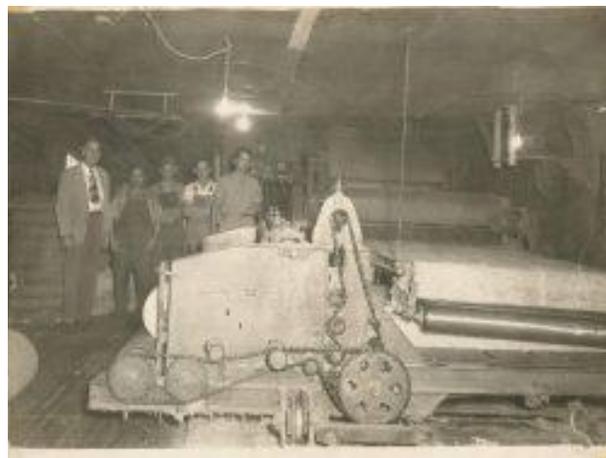

Figure 13: Workers inside the Lyerly Mattress Factory in 1950. Photo courtesy of the Chattooga County Historical Society

- **Economic Development Element** is required for Communities included in the Georgia Job Tax Credit Tier 1. Tier 1 Communities are usually those that are seeking improved economic opportunities for their citizens. It identifies needs and opportunities related to economic development and the vitality of the community, and Community Work Program activities for addressing these needs and opportunities, considering such factors as diversity of the economic base, quality of the local labor force, effectiveness of local economic development agencies, programs and tools. The Comprehensive Economic Development Strategy (CEDS) for the region may be substituted for this element

- **The Land Use Element** of this plan is a joint section including a copy of the Future Land Use Map, showing standard land use categories, and provides an explanation of how the Future Land Use Map is to be interpreted in terms of those categories. These categories will play an important role in determining the direction of the future growth of the County and its Cities.

- **Rural Broadband Element** Each local government must include in its Local Comprehensive Plan an action plan for the promotion of the deployment of broadband services by broadband service providers into unserved areas within its jurisdiction. The action plan must describe steps for the promotion of reasonable and cost-effective access to broadband to parts of the local government's jurisdiction designated by the DCA as unserved areas. The local action plan required pursuant to this element may include, but shall not be limited to, any assessments, studies, ordinances, and/or goals to achieve certification as a Broadband Ready Community or designation of facilities and developments as Georgia Broadband Ready Community Sites. Each local comprehensive plan should contemplate and seek to implement this element in a manner which stresses the importance of broadband deployment across this state, and that broadband services should be considered as important as other necessary utilities.

Independent Narratives

These portions of the plan are jurisdictionally specific and therefore require more individualized organization than the joint narratives. Chattooga County and the city of Summerville, City of Menlo, Town of Trion, and Town of Lyerly each have independent narratives for the following plan elements:

Policies are adopted to provide ongoing guidance and direction to local officials. They provide a basis for making decisions in implementing the comprehensive plan, including achieving the vision for future development and appropriately addressing the community needs and opportunities. Policy statements are identified for each planning element. Due to the interjurisdictional similarity of the policies adopted in the previous Comprehensive Plan this plan will incorporate them into a single joint section to reduce unnecessary repetition

Report of Accomplishments The first step of plan implementation is to conduct a report of accomplishments specific to Chattooga County and the city of Summerville, City of Menlo, Town of Trion, and Town of Lyerly. The report of accomplishments shows the results of past planning efforts. The status of each work program item can be found here. Since work programs are updated every five years, the items under consideration here are from the period from 2014-2018. The local government officials reviewed the 2014-2018 work programs for their respective governments and noted which projects had been completed. If projects were started but not completed, the “Underway” column was marked, and the estimated year of completion was noted. There is no penalty for postponing or dropping a project since this is a planning document and not a binding legal agreement. However, an explanation is required for postponed or dropped projects. For example, a project may not have been accomplished because voters rejected a ballot measure to fund it. Sometimes an item is dropped because it may have been a new initiative or new mandate several years ago, but over time it has become a routine or function of government. Items marked as underway or postponed are carried forward to the work programs in this current plan, Chattooga County Joint Comprehensive Plan, 2020-2024. However, projects noted as “Ongoing,” annual tasks, or policy statements will not be carried forward to the current 2021-2025 work program.

Community Vision/Goals The purpose of the Community Goals element

is to lay out a road map for the community’s future, developed through a very public process of involving community leaders and stakeholders in making key decisions about the future of the community. The community goals are the most important part of the plan, for they identify the community’s direction for the future, and are intended to generate local pride and enthusiasm for the future of the community, thereby leading citizens and leadership to act to ensure that the plan is implemented.

For this plan, the Community Goals element includes a list of goals Chattooga County seeks to achieve and policies selected to provide ongoing guidance and direction to local government officials for making decisions consistent with achieving the Community Goals

Figure 14: Historic photo of Trion Mill in 1895. Photo Courtesy of Chattooga County Historical Society

Needs and Opportunities The methodology for generating the list of needs and opportunities was accomplished via SWOT analyses, which stands for Strengths, Weaknesses, Opportunities, and Threats, is a brainstorming exercise designed for stakeholders to reflect on their community's needs and opportunities. The exercise was carried out by addressing the entire group of stakeholders rather than separating the group by jurisdiction. Stakeholders had been shown a presentation illustrating the current population and economic trends to provide each stakeholder with the basis for an informed discussion during the initial stakeholder's meeting. The SWOT analysis were carried out during steering committee meetings one and two and the community outreach survey was solely based on the information obtained during those initial steering committee meetings. This discussion was broken down into seven categories, (Economic Development, Housing, Community Facilities and Services, Transportation, Natural/Cultural Resources, Land Use, and Intergovernmental Coordination). One planner facilitated the discussion, wrote down the group responses and noted if the responses were specific to individual communities or all communities. Stakeholders were given the opportunity to address each category with the SWOT perspective. The list of needs and opportunities was then brought to each jurisdiction's staff and/or elected officials to determine which items could be addressed specific to each community. Some of the more overarching viewpoints discussed during the stakeholder meetings were better addressed via policy statements and other area specific approaches within the character descriptions rather than the more action provoking items

Community Work Program the Community Work Program lays out the specific activities the community plans to undertake during the next five years to address the priority Needs and Opportunities. It represents a list of specific tasks that the governments are willing to attempt accomplishing. Developing the work program from needs and opportunities lists helps to lead the residents and leaders from general ideas about issues to creating specific tasks to solve them. It is not a contract or binding document, since many items that go on the list are dependent on funding that has not yet been awarded or obtained. Using the possible strategies from the Needs and Opportunities, planners created work program tables. The stakeholders, leaders, and other government officials reviewed these work programs. The managers and/or elected officials had final say in the content of the work programs, because they are the officials who run the government. This includes any activities, initiatives, programs, ordinances, or administrative systems to be put in place to implement the comprehensive plan. The Community Work Program includes the following information for each listed activity:

- Brief description of the activity.
- Timeframe for initiating and completing the activity.
- Responsible party for implementing the activity.
- Estimated the cost (if any) for implementing the activity.
- Funding source(s), if applicable; and
- Need or Opportunity addressed by the activity, if applicable

Economic Development Element

A strong economy is the foundation for a successful community. In a prosperous community, economics provides a framework for understanding the actions and decisions of individuals, businesses, and governments. It provides a means to understand interactions in a market-driven community and for analyzation of government policies that affect the families, jobs, and lives of citizens. Based on the requirements of the Georgia Department of Community affairs, and the minimum standards and procedures, the economic development element is required for Communities included in the Georgia Job Tax Credit Tier 1. Tier 1 Communities are those communities in Georgia who have the lowest per capita income, the highest unemployment, the highest percentage of residents whose incomes fall below the poverty level and those that are seeking improved economic opportunities for their citizens. Chattooga county is fifty-seven out of seventy-one Tier 1 counties, which is an improvement from 2018, when the county ranked sixty-one. Businesses and headquarters that are engaged in manufacturing, warehousing and distribution, processing, telecommunications, tourism, or research and development industries are among those that receive these tax credits.

In order to encourage economic growth within Chattooga County, the town of Lyerly, City of Menlo, City of Summerville and the Town of Trion are making various efforts and work to continue to implement the Comprehensive Economic Development Strategy (CEDS). The Chattooga County Chamber of Commerce, Summerville Main street and the Northwest Georgia Joint Development Authority are amongst those driving the efforts to promote such economic growth. Chattooga County is a prime location for business relocation, expansion, and retail development. Its close accessibility, being south of Chattanooga and north of Atlanta, provides easy access to half of the county's population. Though focused on bringing business to the community, understanding the importance of protecting those small businesses who have had a stake in the community for generations is key.

The Chattooga County Chamber of Commerce has set goals and implemented resources to continue the encouragement of economic growth in the community. By being an advocate for the entire business community of Chattooga County as a whole, staying connected to small businesses and formulating action

Figure 15: Chattooga County Chamber of Commerce and Civic Center. Photo courtesy of the Chattooga Chamber

Figure 16: Historic Photo of the Opening of the Triangle Shopping Center in Trion, GA year 1961. Photo courtesy of the Chattooga County Historical Society.

Figure 17: Walking Bridge in Dowdy Park. City of Summerville, GA

plans, the Chattooga Chamber of Commerce works to find out what businesses need and provide those resources as well as investing into the high school age children to encourage entrepreneurship and trades. The implementation of programs such as “Leadership Chattooga” that focuses on economic development, community relations and leadership development just to name a few, are set in place to prepare for the next generation of economic growth.

The Northwest Georgia Joint development authority has also made efforts by working to assist companies build, expand, and find work sites within Chattooga County. These efforts are used to promote growth in the community and provide planning assistance, research assistance on data, population, labor force and industry, advocacy for a better quality of life and working with the Georgia Economic Development Initiative as well as provide access by partnering with the major utility companies in the area. In Addition, The Northwest Georgia Joint Development Authority works as a liaison to continue the promotion of economic growth and provide assistance in the manufacturing and supply industry to develop high demand jobs based on service classifications.

Chattooga County is amongst one of the fifteen counties in the Northwest Georgia Region included in the 2017-2022 Regional comprehensive economic development Strategy (CEDS). The Northwest Georgia’s Comprehensive Economic Development Strategy (CEDS) is a locally based, regionally driven economic development planning process that works to identify the strengths and weaknesses in the community’s economy. It contributes to effective economic development and serves to engage with community leaders, private sector involvement and establish a blueprint for regional collaboration. With CEDS, Chattooga county continues to implement and work to provide and build prosperity and resiliency within the community.

Recent efforts to encourage economic development in Chattooga County include:

- Summerville Theater Acquisition and Preservation Planning. With property acquisition, the local theater was purchased and renovated to stimulate economic growth in Downtown Summerville through increased tourism.
- The Mohawk Infrastructure project in 2015. \$200,000 in ARC funds were received for infrastructure and site development. With this, \$50,000.00 was matched locally for a pad-ready site to encourage development in distressed County.
- Trion wastewater treatment system improvements in 2016. This provided upgrades to the Town of Trion’s wastewater treatment system to meet proposed permit conditions for nutrient removal and ensure the continued full operations of Mount Vernon Mills.
- Received an EDA planning grant to continue the implementation of northwest Georgia’s IMCP (Investing in Manufacturing Communities Partnership) program. This was predesignated in 2016.
- City of Summerville/Downtown Summerville Trail in 2017. With this, The City of Summerville planned to reconstruct a pedestrian trail connecting downtown Summerville with Dowdy Park to support tourism and downtown Development.

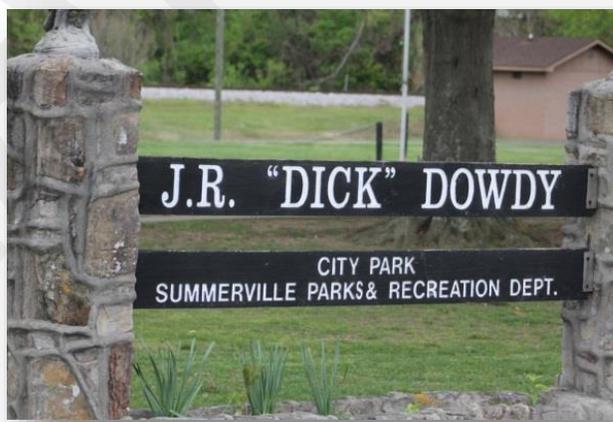

Figure 18: J.R. "DICK" DOWDY CITY PARK. Photo Provided by the City of Summerville.

- Chattooga County/Rehabilitation Plan and Stabilization of the WFAC at Howard Finster's Paradise Garden in 2017. With this, Chattooga County seeks to prepare a Rehabilitation/Adaptive Reuse Plan and begin the stabilization of the Worlds Folk Art Church (WFAC) at Howard Finster's Paradise Garden
- Received an EDA planning grant to continue the implementation of northwest Georgia's IMCP program. This was predesignated in 2017
- City of Summerville/Fairway Recreation Center Soccer Fields in 2017. The Construction of three regulation size soccer fields on the west side of the park grounds location at the Fairway Recreation Center.
- Chattooga County & Paradise Garden Foundation Office Renovations in 2017. Chattooga County requested to renovate the office building into a new Airbnb. In its current state, the office lacked suitable heating, ventilation, and air conditioning (HVAC), has deteriorating and unsafe flooring, has no ceiling in the main living quarters and lacks proper appliances and plumbing to be a proper living quarter.
- City of Summerville/Summerville Housing Authority Pedestrian Connection in 2017. Create 1,227 square yards of 5-foot-wide paved sidewalk to connect the Summerville Housing Authority/senior citizen high rise to nearby restaurants and shops for low-income and elderly citizens.
- Town of Trion Purchase of 2018 Western Star Tandem Dump Truck in 2017. Purchase of a 2018 Western Star Tandem Dump Truck
- Town of Lyerly/Lyerly Sewer System Improvements 2018. The Town of Lyerly seeks assistance in updating their sewer system to improve energy-efficiency and ensure continued capacity for future growth and redevelopment.
- NWGRC/NW Georgia Rural Broadband Needs Assessment in 2018. The purpose of this project is to prepare a broadband need assessment for the 15 counties of Northwest Georgia which include, Bartow, Catoosa, Chattooga, Dade, Fannin, Floyd, Gilmer, Gordon, Haralson, Murray, Paulding, Pickens, Polk, Walker and Whitfield counties.
- NWGJDA / Top of Georgia Economic Development Plan in 2019. This Allowed the Northwest Georgia Joint Development Authority to engage consultants to prepare an economic development plan for the four-county area that will assist the agency to stimulate the local economy, create jobs, build economic capacity, and improve the quality of life for residents.

Figure 20:Howard Finster Paradise Garden

Past to present

In order to understand the future and the direction in which the economy of Chattooga County is heading, it is important to understand the pattern of economics and the history of economic development from past to present. During the nineteenth century, the basis of the economy was provided by Paper Mills and occupied by small farms. Present day, manufacturing and commercial centers are growing and beginning to be a leading force within the current day economy.

Our consuming society and world economy depend not only on services given, but on products produced. People will continue to buy items that are produced by others, and in their production of goods eventually purchased within that consuming society and world economy, businesses also have needs for manufactured products. The Manufacturing industry has great significance due to it accounting for a greater share of rural private non-farm jobs as well as rural earnings.

Figure 21: Showa Best Manufacturing. Located in Menlo, GA

A look at how household income is distributed by income ranges is below. Percentage of household income for each range is shown for each jurisdiction.

Menlo, Summerville, and Trion exceed the state’s poorest income range percentage, where Lyerly does not. Approximately half of the county’s population (49%) is making \$25,000-\$75,000. The amount is much higher than that of the state’s (43%). In the top range of households (\$200,000 or more) the county’s percentage remains below that of the states.

Household Income Distribution Percentage: 2017

Area	Less than \$10,000	\$10,000 to 14,999	\$15,000 to 24,999	\$25,000 to \$34,000	\$35,000 to \$49,999
Chattooga County	10.60%	9.50%	18.00%	14%	16.80%
Lyerly	6.30%	8.90%	22.50%	8.90%	26.70%
Menlo	13.20%	18.50%	13.70%	18.10%	15.00%
Summerville	20.40%	12.40%	17.50%	13.40%	13.60%
Trion	9.80%	6.80%	21.50%	12.20%	24.60%
Georgia	9.20%	5.90%	11.60%	10.90%	14.10%

Area	\$50,000 to \$74,999	\$75,000 to \$99,999	\$100,000 to \$149,999	\$150,000 to \$199,999	\$200,000 or more
Chattooga County	18.20%	5.90%	4.30%	1.30%	1.40%
Lyerly	19.40%	5.20%	2.10%	0.00%	0.00%
Menlo	10.10%	6.20%	3.50%	1.80%	0.00%
Summerville	10.00%	3.70%	5.20%	0.00%	3.70%
Trion	13.70%	5.10%	4.30%	0.80%	1.20%
Georgia	18.00%	11.10%	11.30%	4.10%	3.90%

Source: U.S. Census Bureau, 2012-2017 American Community survey

Based on the 2017 Household income distribution percentages, 10.6% of residents living in Chattooga County Earn less than \$10,00; 9.5% household income is between \$10,00 to \$14,999. 18% of resident's household income distribution is \$15,000 to \$24,999, 14% of household income is \$25,000 to \$34,000 and 16.8% of household income is \$35,000 to \$49,999.

While rural communities offer many opportunities, the growth of its economy and the preservation of a trained and safe labor force often face unique challenges. There are lower wages and higher rates of poverty in rural areas than in urban areas. A smaller percentage of the rural population is working age (20-64), which creates obstacles for potential job growth, and over time the proportion of the population residing in rural counties has reduced slowly. A greater percentage of rural residents are disabled and thus unable to participate in the rural workforce. For the working-age demographic, educational achievement lags below that in urban regions. The Administration, acknowledging these obstacles, has made education a big component of its rural American policies. Focusing on expanding small business opportunities, tourism and recreation, and clean energy will also help make rural households better off while attracting a new generation of young workers.

Business recruitment, business retention and options such as career academies and job training play a significant role within the economy. With business Recruitment, profitability and performance can become more effective and there is a greater chance for more skilled workers. Growth of the economy and growth of businesses begins with the type of recruitment strategy. In efforts to create assets, Chattooga County has put focus on supporting efforts that diversify the economy, particularly small businesses, Creation and entrepreneurship and the retention and extension of industry Effort Activities. Also, the improvement of workforce development Improves the efforts to develop employees that equip students with industry-identified abilities to allow them to participate in advanced manufacturing and IT heavy economic sectors of healthcare.

Existing businesses within Chattooga County are vastly important. Business retention increases the value of existing businesses and is the core of economic development. With this, building positive relationships with local businesses, having regular scheduled connectivity and follow up with each business will provide support to these businesses and assist with the growth and development of the activities provided with each. Options to increase retention and growth with existing businesses for the future would be investing into the options to offer coaching and guidance, training programs to keep skills fresh and competitive, and allowing business to have access to community tools and resources. By having community efforts in line with local businesses, we enact growth not only as a community, but together for everyone who lives, works and own and operates a business within the community. The goal is to have a positive impact on everyone. The existing business

Figure 22: Skilled workers

Figure 23: Georgia Northwest Technical College (GNTC)

defines the economy. Focus should not solely be on bringing in new business but developing the existing for greater prosperity and longevity.

Training opportunities that are available assist the youth, adults and the dislocated worker (DW) and is as follows; **The Workforce Innovative Opportunity Act**, this is a job training program that offers employment and training opportunities to individuals in the Northwest Georgia 15-county area. Individuals involved in this program must meet eligibility criteria to qualify for training. Programs for youth assists those within the 16-24 years old age range and provides Work Experience (paid work experience with employers where students learn skills that can enhance their employment opportunity) and an opportunity for permanent employment. There is also the availability to receive a welding Diploma – individual Training Account (ITA) and long-term training at Georgia Northwest Technical College as well as the opportunity to receive a GED (General Education Diploma). For adults, the programs offered are for Individuals that are eligible based on family income or barriers to employment. With this, adults can receive on the Job Training (OJT) and an agreement with an employer to train individuals at a higher than normal wage, with benefits. These Adults are hired at the point of training and training last for 12 weeks. Last but not least, individual Training Account (ITA) Adults that are in training for 1 to 2 years (long term) and receives a credential, these programs will make them more employable.

For the Dislocated Worker (DW) there are 20 available slots that provide Individuals that have been impacted by a plant closing, employer layoff, long term unemployed or business closer with Individual Training Account (ITA) and may provide Individuals that are in training for 1-2 years (depending on training). There also are multiple opportunities for On the Job Training (OJT) for Individuals who will be trained on the job and able to learn and earn a wage higher than medium wage.

The table below lists the largest employers within Chattooga County and the surrounding area. Note that employers are listed alphabetically by area not by the number of employees

Largest Employers of Chattooga County and Surrounding Area

Chattooga County Workers – 2017 Estimates

Year	Employed residents of Chattooga County	Number Working Inside County	Percent Working Inside of County	Number that work outside of County	Percent that works outside of the County
2017	9,666	3,086	32	6,580	68

Source: LEHD Origin-Destination Employment Statistics (LODES), 2017

Based on the data set above, it tells a significant story about the state of Chattooga County and its workforce. Within Chattooga County, 68% of the workforce, works outside of the county, which leave 32% of workers working inside of Chattooga County. Mount Vernon Mills, being one of the major employers in the area contributes to the number of workers who are able to work within their county of residence.

Based on current trends, it is important to work toward obtaining revenues that promote an increase in revitalization in both the downtown development and projects that assist with the revitalization of public, infrastructure, and the workforce.

Downtown development has a significant and inimitable role in economic and social development. Downtowns are important because they are the epicenter of where commercial, cultural, and civic activities are focused. A healthy downtown can also be viewed as a key to a successful thriving community. With working on the revitalization of downtown development, it will also assist with the creation of jobs, attracting tourism and can also provide an increase of property values which will then provide revenue for the community.

A healthy environment assists with the well-being of the community. Infrastructure such as roads, water, sewer, and sidewalks focus on the preservation of the quality of life and provides an increase in economic growth. It allows trade, empowers industries, links employees to their jobs, provides opportunities for communities that are struggling, and protects the nation from an increasingly volatile natural environment. Infrastructure is also known as the cornerstone of a stable economy, from private investment in telecommunication services, cable networks, freight trains, electricity projects and pipelines, to public spending on transportation, water, housing, and parks. As a community, Chattooga County has worked to coordinate infrastructure expansion to areas identified as appropriate for new development.

DRAFT

JOINT LAND USE ELEMENT

A comprehensive guide of future development and redevelopment in Chattooga County and the Town of Lyerly, City of Menlo, City of Summerville, and Town of Trion.

GEOGRAPHY

Chattooga County Includes the Town of Lyerly, City of Menlo, City of Summerville, and the town of Trion. It also includes smaller communities that are unincorporated cities but are recognized places within the county. The evidence below is addressed by geographic area:

Chattooga County

Chattooga County, GA includes the municipalities of Summerville, Trion, Lyerly, and Menlo. Each have their unique character informed both by its physical attributes and management decisions made over time. Chattooga County was formed in 1838. In 1838 the Georgia Assembly officially formed Chattooga County from the Southern portions of Walker County and the Northern portion of Floyd County. The County borders Alabama to the west and is located South of Chattanooga Tennessee by approximately 50 miles; it is northwest of Atlanta by approximately 90 miles

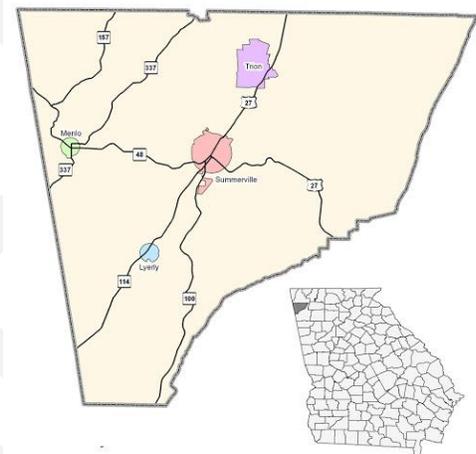

Figure 26: Map of Chattooga County and the Town of Lyerly, City of Menlo, City of Summerville,

Cities

Summerville

The City of Summerville is known as the county seat for Chattooga County. The City of Summerville is centrally located within the Chattooga Valley within the county, on the westward side of Taylors ridge, and at the intersections of Georgia 100, 114, 48, and U.S. Highway 27. The historic Downtown Summerville Depot of 1917, constructed after the original 1889 depot burned, serves as a reminder of the importance of the railroad in Summerville's development.

Trion

The Town of Trion is located along U.S. Hwy 27 on the westward side of Taylor's Ridge and is approximately 5 miles north of the County seat of Summerville. The Town of Trion has gone through several name changes before its incorporation. Early accounts refer to Trion by the name of Island Town.

In 1847 the town changed its name to Halfway, before reverting to Island Town; shortly after, the town changed to that of the Trion Factory. The Trion factory, a cotton mill, was founded by three Walker County businessmen in around 1847. The mill being of success spurred growth in the area. Originally, housing was primarily constructed for those working at the mill. In 1862 Trion finally became incorporated. During the Civil War Trion escaped from being burned by Sherman and the Union Army; unfortunately, in 1875, the Trion Mill did burn from expected arson and was quickly built back. Though the factory and town were very successful, growth and prosperity were expedited by the introduction of rail in 1888-1889. In 1912 a "New Yorker" by the name of Benjamin D. Riegel bought the Trion Factory and renamed it to Riegel Textile. The factory operated under the Riegel name until 1985 when Mount Vernon Mills purchased a large volume of stock owned by a Ms. German H.H. Emory, the daughter of Benjamin D. Riegel.

Lyerly

The Town of Lyerly is located just west of the Chattooga River, southwest of the City of Summerville, and along highway 114 at its intersection with Oak Hill and Taliaferro Springs Rd. It is an approximate 6 miles Northeast of the Alabama line. Angus McLeod is considered the founder of Lyerly. In 1888, he donated land for the Chattanooga, Rome, and Columbus Railroad company Depot. At that time, parcels of land were platted for the creation of a town. There, shortly after, a post office was constructed. The catalyst of development was in large part due to the finding of ore deposits in the area. The town's namesake was that of Charles A. Lyerly, a Tennessee banker who invested heavily in the area. In 1891 the town became incorporated.

Menlo

The City of Menlo is located just east of the Georgia Alabama line, located at the intersection of Highway 48 and Old Georgia 337. Menlo was platted on property formerly owned by Captain Andrew J. Lawrence, a Confederate Veteran who donated his land for the town's school and churches. Captain Lawrence had an interest in the education of those of freed African American Slaves. Menlo's current post office began operation in 1886. The Chattanooga Southern Railway came to Menlo in 1891. The town became incorporated in 1903.

Description and General Overview

Ridge and Valley, Preserved lands, Waterways, and Agriculture

Geology

Chattooga County has been largely influenced by its location in the Valley and Ridge Province of Georgia, with its northeast-southwesterly oriented ridges of beautiful vistas and valleys of rich soil. These valleys' richness is from the formation of soil from both shale and limestone geology. This geology type allows for water to seep into the ground, providing an abundance of groundwater to renew local streams and rivers. Water availability provides from this aquifer system an abundance of water for drinking, agriculture production, and industrial use. The Chattooga River flows southwest through the Chattooga Valley and it is part of the larger Coosa River Basin; it consists of unique aquatic species endemic to that larger basin.

The geology of this area results in rich fertile valleys. Where the valleys have healthy productive soil, the ridges are thin and acidic soils. The thin soil of the ridges is due to erosive actions taken place over time. Over time erosion exposed sandstone and/or chert parent material, causing these soils to be acidic. Acidic soils lead to these slopes to be mostly forested lands. These conditions allow these soils to be appropriate for conservation and recreational uses, including National Forest Service Lands and Sloppy Floyd State Parks found in Chattooga County. These ridges include Taylors Ridge and southern portions of Johns Mountain, Dirtseller ridge.

Agriculture

The United States Department of Agriculture 2017 estimates has Chattooga County with 323 total farms with total acreage of 55,263. Most activities are poultry and pasture related. A review of the most recent University of Georgia Farm Gate values, for the year 2018, reflects the significance of this land use. Chattooga county is ranked 48th in Georgia in Total poultry and egg value at \$24,232,068. The county is ranked 35th in beef cattle with an estimated production of 7,100 per head and a farmgate value of \$4,030,812. As reported, the county is ranked 25th in the state in horse production, with a total yearly value of \$508,300. Outside of poultry and pasture related farming activities, the other agriculture activities of note are corn, timber, and tourism. Chattooga county is ranked 49th in corn Farm Gate Value at \$1,447,952, 87th in timber at a value of \$1,996,512, 65th in agriculture and nature-based tourism at a total value of \$271,375.

Preserved land and Nature-based recreational

Nature-based recreational opportunities exist within the county as there is access to National Forest Service Lands and Sloppy Floyd State Park. These areas provide important habitat and protect against environmental degradation of more sensitive lands. Sloppy Floyd Park provides wildlife habitat; hiking, fishing, and paddling recreation opportunities; it has the remnants of the once present mining industry in the forms of caves and infrastructure used. The park has a small lake with fishing piers; kayak and canoe rentals are available also. There is also a waterfall that flows in front of an abandoned mining cave entrance.

East of Taylors ridge; at the intersection of Chattooga, Gordon, and Walker County, is Johns Mountain Wildlife Management Area. Johns Mountain provides biking, shooting, horseback riding, camping,

fishing, hunting, wildlife viewing, and picnicking recreational opportunities. Located in the northwest corner of the county, just east of the Alabama line and just south of Walker County, is the Otting Wildlife Management Area. The management area allows for geocaching, hunting, fishing, and wildlife viewing. Otting Wildlife Management Area.

Housing

Chattooga County

Chattooga County has the least number of houses in comparison to the surrounding counties of Floyd, Gordon, and Walker. The housing unit density is only an approximant 35 units per square mile, which is considerably below that of Gordon County's 62 units per square mile. The housing unit density difference is even greater when compared to Floyd and Walker County. In 2000 the Census Bureau's decennial census reported a total of 10,677 total housing units within the county, 9,577 of which were considered occupied (*tables below*). By 2010 the total number of housing units within the county had increased to 10,977 units, but the number of houses occupied had decreased to 9,548 housing units. The total count of unoccupied houses by the 2010 census had grown by 329 units. Using ESRI Business Analyst Online, Northwest Georgia Regional Commission estimated the number of housing units for 2020. The 2020 estimates report the total housing units to be 11,208, of which 9,773 are expected to be occupied. The number of unoccupied housing is a closer reflection of the values reported in the 2000 and 2010 Census than that of the 2018 Census American Community Survey.

Table #

Year	Total Housing Units	Occupied	Un-occupied
2000	10,677	9,577	1,100
2010	10,977	9,548	1,429
2018	10,956	9,098	1,858
2020	11,208	9,773	1,435

Table

Year	Owner Occupied (%)	Renter Occupied (%)	Vacant (%)
2000	67.5	22.2	10.3
2010	61.3	25.6	13.0
2018	65.8	34.2	0
2020	56.0	31.2	12.8

The Census 2018 ACS lists housing structures by year constructed. A review of the 5-year estimates for 2014 to 2018 reveals that the median year being between 1970 to 1979 for houses constructed within the county.

Summerville

The number of housing units as of the 2000 Census for the City of Summerville was 2,148 units. The total number of housing units per square mile is approximately 536 units per square mile. The percentage of unoccupied was approximately 13% or 275 units. The 2010 Census reported minimum growth in total housing units to 2,159 units and a housing density of 538 units per square mile. The number of unoccupied houses increased by 19 housing units but remains at 13% of the total. Estimated values from ESRI Business Analyst Online are more reflective of that of the 2010 decennial census. Total housing units are reported as 2,173 units; of which, 16% are expected to be unoccupied. Census data indicates that the housing stock median year of construction being between 1970 to 1979.

Table

Year	Total Housing Units	Occupied	Un-occupied
2000	2,092	1,823	275
2010	2,159	1,842	317
2018	2,024	1,717	307
2020	2,173	1,825	348

Table

Year	Owner Occupied (%)	Renter Occupied (%)	Vacant (%)
2000	67.5	22.2	10.3
2010	61.3	25.6	13.0
2018	37.7	62.3	0
2020	56.0	31.2	12.8

The Census 2018 ACS lists housing structures by year constructed. A review of the 5-year estimates for 2014 to 2018 reveals that the median year of construction being between 1970 to 1979.

Trion

Though similar total area to that of Summerville, the Town of Trion's housing summary reports a smaller number of units in comparison to Summerville. The count of housing units was 906 units as of the 2000 Census, or a housing density of 236 housing units per square mile. Unoccupied housing was at 77 or 8.5%. The 2010 decennially census reported 140 units decrease as a result; the result is a housing density decrease to only an approximate 200 housing units per square mile; 12.8% are reported as unoccupied. The total housing is listed at 872 units, but these are only estimated values. Estimated values for 2020 from ESRI Business analyst online is 769 total housing units, 14% unoccupied.

Table

Year	Total Housing Units	Occupied	Un-occupied
2000	906	829	77
2010	766	668	98
2018	872	793	79
2020	769	662	107

Table

Year	Owner Occupied (%)	Renter Occupied (%)	Vacant (%)
2000	63.2	28.3	8.5
2010	48.6	38.6	12.8
2018	43.4	56.4	14.0
2020	48.9	36.9	14.5

The Census 2018 ACS lists housing structures by year constructed. A review of the 5-year estimates for 2014 to 2018 reveals that the median year being of 1939 or earlier.

In 2016 the Town of Trion requested the NWGRC for a housing and neighborhood improvements redevelopment plan. The town's deteriorated housing is much contributed to by large numbers of renter occupied or vacant housing, with only 51.3% of housing units being occupied. Over the years Trion had suffered from several floods within parts of its residential neighborhoods. The redevelopment plan emphasized that new construction be designed to accommodate these conditions. The ACS also lists by year that housing structures were built.

Lyerly

The Town of Lyerly is only $\frac{3}{4}$ of a square mile in area, considerably smaller than that of Summerville and Trion. The 2000 and 2010 Census values reported 217 and 229 units in total; this indicates that the housing unit density is slightly larger than that of Trion's currently. The 2010 Census reported a modest increase in the number of housing units, as the tally was 229 Units. The 2018 ACS stated the total housing as 256 units. Estimated values for 2020 provided by ESRI Business Analyst are for 236 total housing units, 10% unoccupied.

Table

Year	Total Housing Units	Occupied	Un-occupied
2000	217	175	42
2010	229	201	28
2018	256	233	23
2020	236	212	24

Table

Year	Owner Occupied (%)	Renter Occupied (%)	Vacant (%)
2000	69.6	19.4	11.1
2010	61.6	26.2	12.2
2018	84.1	15.9	0
2020	68.2	22.2	9.6

The Census 2018 ACS lists housing structures by year constructed. A review of the 5-year estimates for 2014 to 2018 reveals that the median period to be between 1960 to 1969.

Menlo

Like Lyerly, Menlo's total area is modest, an approximant $\frac{3}{4}$ of a square mile. Menlo's total in housing units is slightly larger than that of Lyerly's, with 240 units recorded in the 2000 Census. By the 2010 Census, the total housing units had increased by 13 for 253 units. ESRI Business Analyst Online approximates for 2020 a total housing to be 267 units, 13% unoccupied.

Table

Year	Total Housing Units	Occupied	Un-occupied
2000	240	217	23
2010	253	215	38
2018	226	207	19
2020	267	232	35

Table

Year	Owner Occupied (%)	Renter Occupied (%)	Vacant (%)
2000	71.2	19.2	9.6
2010	52.6	32.4	15
2018	54.6	45.4	0
2020	60.3	27.0	12.7

The Census 2018 ACS lists housing structures by year constructed. A review of the 5-year estimates for 2014 to 2018 reveals that the median period to be between 1960 to 1969.

Transportation

Roads and Highways

The Chattooga Valley is a major thoroughfare of transport within Chattooga County, containing both Highway and Rail. Highway 27 connects Chattooga County with Chattanooga Highway 48 is a northwest connection to the incorporated Town of Menlo and then to Alabama. At Summerville there are two major State of Georgia Highways, 114 and 100. 114 Connects Summerville with the incorporated Town of Lyerly before entering the State of Alabama. Highway 114, by connection with serval State of Alabama and U.S. Highways, gives access to Birmingham Alabama. State Highway 100 is an additional highway connection to Floyd County and the City of Rome to the south.

Rail

Rail is an important historical component to mention in that it provides context to the development of Chattooga County as a whole; but more specifically, in the development of the Town of Trion, the City of Summerville, the Town of Lyerly, and the Town of Menlo. Though Chattooga County was formed in 1838 and the railroad was chartered as early as 1874, rail did not come to Chattooga County until 1888.

Public Water and Wastewater Utilities

Chattooga County

Chattooga County Government is permitted to withdrawal 1.21 million gallons per day of groundwater, but only needs 0.89 million gallons per day. The Chattooga County Government is not reported to have wastewater treatment capabilities but does provide its drinking water from groundwater sources. The County is permitted to withdraw a monthly average of 1.21 million gallons per day, but only currently withdrawals 0.89 million gallons per day.

Coosa North Georgia Municipal Groundwater Withdrawals Monthly Average Permit Limit and 2019 Average Daily Withdrawal (MGD)					
Permit Number	Permit Holder	County	Aquifer	Permitted Monthly Average (MGD)	Average 2019 Withdrawals (MGD)
027-0001	Chattooga County Water District No. 1	Chattooga	Paleozoic Limestone	1.21	0.86

Summerville

Summerville has 218.95 miles of water main and 4,500 plus water meters. A review of the Coosa North Georgia Regional Water Plan lists the City of Summerville as the only municipality to provide its drinking water from a surface water source. The city receives its supply from Racoon Creek and Lowe Spring, both are tributaries to the larger Chattooga river and are a Small Supply Watersheds. The following table provides a summary of water supply permitted withdrawal and actual withdrawal quantity.

Coosa North Georgia Municipal Surface Water Withdrawals Monthly Average Permit Limit and 2019 Daily Withdrawal (MGD)					
Permit Number	Permit Holder	County	Source	Permitted Monthly Average (MGD)	Average 2019 Withdrawals (MGD)

027-14002-02	Summerville, City of	Chattooga	Racoon Creek	2.5	1.96
027-1402-04	Summerville, City of	Chattooga	Low Spring	0.5	0.21

On January 30, 2020, the Georgia Environmental Protection Division (EPD) received drinking water samples from Racoon Creek treatment facility containing PFA (perfluoroalkyl) substance. PFASs, have been used to make carpets, clothing, fabrics for furniture, paper packaging for certain food and other materials. PFASs over certain levels may result in adverse health effects to unborn children, nursing children, and those adults with compromised immune systems. Due to the contamination residents were advised to fill up containers of freshwater from a water truck from City Hall. The City installed Granular Activated Carbon Filter at the Racoon Creek Facility at between \$150,000 and \$200,000 to install. To pay for the filter the city increased resident's water bills by 25 percent. Once the filters were installed bills were reduced. As of November 12, 2020, the health advisory for the City of Summerville was lifted. As of November 12, 2020, the city has spent a total of \$900,000 on the new filter, pipeline, and plans for a well to be installed. In total, a long-term solution will cost between three and four million dollars.

It is known that the City of Summerville original water pollution control plant (Wastewater treatment facility) was constructed in 1967. Improvements and additions to the facility were constructed in 1988, with the last upgrade being in 2008. The facility's current treatment capacity is 2 million gallons per day with a maximum permitted capacity of 2.5 million gallons per day. Currently, the plant is operating at approximately 1.6 million gallons per day. The City of Summerville also has a National Pollutant Discharge Elimination System (NPDES) permit, which allows for some discharge of waste directly into a water body.

Trion

The Town of Trion water is withdrawn from Trion Springs by the Mount Vernon Mill within the town's jurisdictional boundaries; in return, the mill provides clean, treated water to the Town of Trion. The following table provides a summary of water supply permitted withdrawal and actual withdrawal quantity.

<i>Coosa North Georgia Municipal Surface Water Withdrawals Monthly Average Permit Limit and 2019 Daily Withdrawal (MGD)</i>					
Permit Number	Permit Holder	County	Source	Permitted Monthly Average (MGD)	Average 2019 Withdrawals (MGD)

027-14001-03	Mount Vernon Mills, Inc.	Chattooga	Trion Springs	6.6	Not listed
--------------	--------------------------	-----------	---------------	-----	------------

The Town of Trion also has a wastewater treatment facility and a NPEDS permit. Mount Vernon Mills also has a NPEDS permit.

Menlo

The city has its permitted water source of 0.19 million gallons per day allowed for withdrawal at this time. The average monthly withdrawals are currently only a fraction of the permitted amount at 0.05 million gallons per day.

Coosa North Georgia Municipal Groundwater Withdrawals Monthly Average Permit Limit and 2019 Average Daily Withdrawal (MGD)					
Permit Number	Permit Holder	County	Aquifer	Permitted Monthly Average (MGD)	Average 2019 Withdrawals (MGD)
027-0003	Menlo, City of	Chattooga	Knox Group	0.19	0.19

Menlo has a treatment facility and a NPEDS wastewater permit also.

Lyerly

The Town of Lyerly is permitted for the withdrawal of 0.25 Million Gallons Per Day but currently averages 0.28.

Coosa North Georgia Municipal Groundwater Withdrawals Monthly Average Permit Limit and 2019 Average Daily Withdrawal (MGD)					
Permit Number	Permit Holder	County	Aquifer	Permitted Monthly Average (MGD)	Average 2019 Withdrawals (MGD)

027-0002	Lyerly, Town of	Chattooga	Conasauga FM, Knox Group	0.25	0.28
----------	-----------------	-----------	--------------------------	------	------

Unlike the other municipalities, Lyerly is permitted for wastewater land application as its treatment process.

DRAFT

DRAFT

INTRODUCTION

BROADBAND ELEMENT

Access to high speed Internet has become a necessity for business and greatly improves the quality of life for residents. In 2015, the Federal Communications Commission established the definition of high-speed internet, or broadband, at 25 megabits per second for download, (downstream) and 3 megabits per second for upload (upstream). The state of Georgia used this definition as a benchmark for high speed Internet service in Senate Bill 403, which was passed to become the “Achieving Connectivity Everywhere (ACE)” Act in spring 2018. This Act has allowed for the creation of the Broadband Ready Program to help communities bring high speed internet service even to the most rural areas. Chattooga County, The City of Summerville, City of Menlo, Town of Trion and Town of Lyerly would like to participate in the Broadband Ready Community program because they see a real need to facilitate better Internet connectivity for all residents, regardless of how remote their homes are. Therefore, this broadband element is being added to the comprehensive plan, and three work program items have been added for each government

- The first item is a commitment to pass a broadband ordinance covering the process of providing broadband to all residents
- The second item states that they will participate in the Broadband Ready Community Program with its adopted ordinance.
- The third item is a commitment to apply for funding under the Broadband Ready program. The Northwest

Figure 27: Children using tablets and cellular devices. Many students are tasked with homework requiring internet access. For those students living in rural areas internet access is often limited or altogether unavailable.

Figure 28: In the age of wireless connectivity, invisible to the naked eye, costly physical infrastructure is required to provide reliable, high-speed broadband. The infrastructure primarily consists of buried fiber optic cable as shown above

Georgia Regional Council has formed a Broadband committee in response to the Broadband Ready Program. Chattooga County has participated in that committee to find solutions to the issue of rural areas without good internet connection.

Broadband coverage is an essential tool that will increase the quality of life for many residents within Chattooga County. In the current aspect of time, broadband accessibility provides rural prosperity by enabling effective, modern communications among rural American households, schools, education, and healthcare facilities. The availability of broadband services will also allow greater tangibility between workforce, resources, economic development and more. With achieving connectivity everywhere, residents in rural areas will not only have a better way of life, but also the industries within these communities will have a competitive advantage.

With providing the appropriate transmissions technologies, broadband has been made possible for numerous residential and businesses areas within Chattooga County. Options for broadband coverage include, DSL (Digital Subscriber Line), Fiber, Cable Modem, Satellite and Wireless. Access to internet service providers are based on location within the County.

There are approximately 1.6 million rural residents in the state of Georgia who lack internet connections. Based on the broadband availability map provided by the Georgia department of community affairs, the focus projects towards the unserved broadband statistics for Chattooga County and the amount of served and unserved areas within Chattooga County. County wide there are approximately 15% of locations that are deemed unserved. The map below (Figure: __) depicts access to broadband, not actual subscriptions to broadband. With the review of data, there is an estimated number of 1,916 unserved locations, 11, 183 served locations and 15% unserved areas within Chattooga County. Broadband data is provided by the various Internet Service Providers of Georgia.

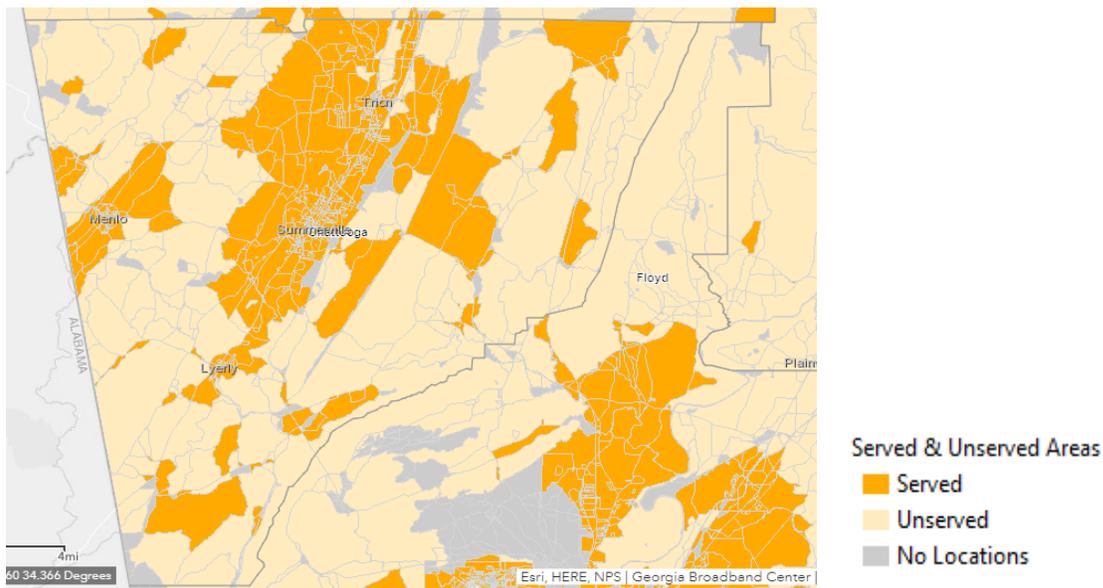

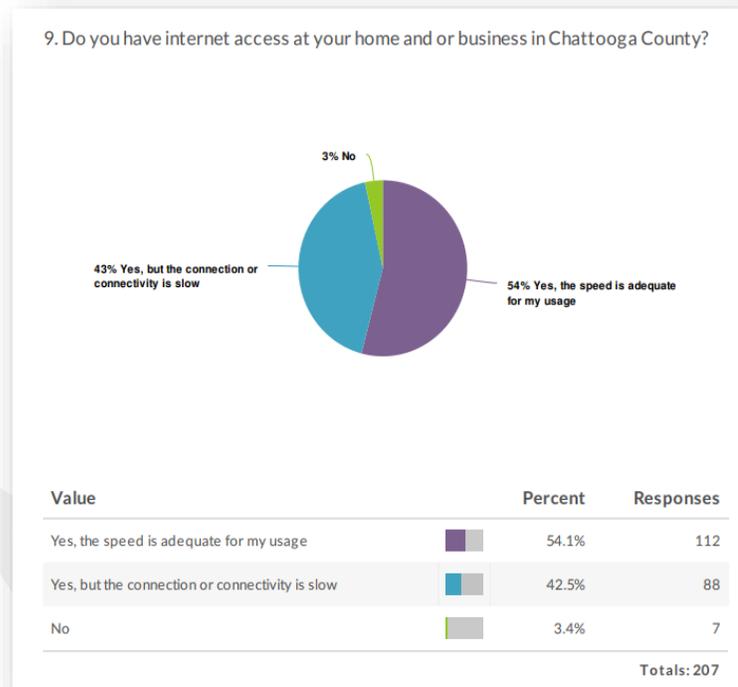

Figure 29: Map of Chattooga County Showing Served and Unserved Broadband availability within the county. Map Provided by the Georgia Department of Community Affairs (DCA)

Windstream and spectrum make up some of the main sources of Broadband for Chattooga County. In terms of commitment to broadband, Chattooga County's primary provider Windstream, provides approximately 94.2% of

broadband coverage within the county, with 97.0% having access to at least 25+ mbps. Within the growth and future of Chattooga County 2021-2025 survey, the questions asked residents about their broadband coverage and whether or not the coverage is sufficient, those responses provided a detailed outlook based on the participation of the public.

To get the best understanding of the state of broadband within Chattooga County, A survey “The Growth and future of Chattooga County”, was created. As shown in figure ___ to the right, the survey question was centered around access of internet within the home or business of the Chattooga County residents. A total of 207 responses were collected and stated that 54.1% of residents having adequate speeds for usage and 42.5% of residents stated that they have access to internet, but the connection or connectivity is slow. Out of these responses, 3.4% of residents advised that they do not have internet access within their home or business.

The lack of internet access effects rural communities in many ways. The effects on education are top tier. Students in rural communities without adequate internet access are at risk of falling behind due to the absence of broadband access in their communities. In both the classroom and at home, broadband internet has become important for students to be prepared to compete in todays world and economy of the 21st century. It has become the leading tool to assist with the completion of research, assignments, and the access of resources.

Since 70 percent of teachers assign homework that needs broadband access, the lack of, is a major issue for families and the youth whose work consists of internet study, interactive communication, and online testing. Without broadband, learners in rural communities will easily fall behind those with access to greater broadband connectivity in suburban and urban areas.

Figure 30: Survey Question about Broadband access in the Growth and Future of Chattooga County Survey.

Figure 31: high school students in rural area doing homework outdoors to achieve greater internet connection.

DRAFT

IMPLEMENTATION PROGRAM

From hence forth the plan will focus on individual, rather than joint needs of each community as previously stated in the HOW TO USE THIS PLAN section. Each community will provide a community statement and/or a list of goals, policies, a report of accomplishments from the previous 2016 -2020 planning period, a list of current Needs and Opportunities, and finally a new Community Work Program for the current 2021-2025 planning period.

Chattooga County

VISION STATEMENT

Chattooga County and its cities are proud and passionate communities with a sense of community pride. We are determined to improve each of our local communities by providing a livable, sustainable, and thriving community for our residents along with a healthy growing economy that will improve the rural quality of life. We embrace and protect our Historical, cultural, and natural resources, while coming together as a community to promote positive, cooperative, and effective relationships, economic growth and development, as well as building a successful future for our residents that include the following goals:

- A solid elevating economy which is diversified and varies among small businesses, industrial, commercial, agriculture and tourism sectors, which enhances quality of life for all citizens and carefully manages the community's resources.
- Having the option to guide future development and preservation, with educated Land use methodologies that considers the protection, maintenance and management of the areas that include our natural, cultural, environmental, and historic resources.
- A community that achieves and provides valuable partnerships, relationships, training tools, education and resources between educational institutions and work industry to invest into the youth and workforce to develop pathways community and a healthy economy.
- Housing that is Adequate and attainable for all citizens.
- A well-funded multi-modal Transportation Plan

POLICY STATEMENTS

Economic Development

- Support the Northwest Georgia Joint Development Authority
- Continue the successful coordination for financing of economic development and infrastructure with SPLOST-funded projects.
- Protect existing business/industry and address the needs and concerns of small business as well as commercial enterprises with the intent of improving workforce development
- Encourage the development of apprenticeships, internships, STEM camps, additional focus on STEM learning, increased technology utilization in the classroom, College and Career Academy, greater collaboration between technical colleges, middle and high schools, colleges and industry to develop programs of study such as advanced manufacturing pathways.
- Implement the Digital Region One Plan Implementation
- Implement Northwest Georgia Advance Manufacturing Strategy

Housing

- Support the development of Housing for young professionals.
- Support the development of Senior living housing
- Promote the Use of the Federal historic housing rehabilitation tax credits.

Transportation

- Coordinate with GDOT and NWGRC to develop a joint countywide Multi-modal Transportation Plan.
- Support planned GDOT improvements of SR-140/Adairsville Road in Floyd County
- Continue to develop and strengthen relationship with Bike Walk Northwest Georgia

Figure 35: Downtown Summerville.

Figure 36: Chattooga County Commissioners office. Photo courtesy of the Chattooga County Chamber of Commerce.

Figure 37: Chattooga County Gateway Sign.

Natural and Cultural Resources

- Continue coordination with water planning districts
- Continue coordination with Coosa River Basin Initiative (CRBI)/Upper Coosa Riverkeeper, and the Conservation Fund
- Encourage regional-level partnerships to protect and enhance the natural environment, without being tied to political boundaries
- Continue to enforce sediment and erosion control requirements to mitigate negative impacts of construction site run-off on waterways.

Figure 38: James H. (Sloppy) Floyd State Park in Chattooga County

Community Facilities and Services

- Continue coordination of infrastructure expansion to areas identified as appropriate for new development and redevelopment.
- Promote orderly expansion and rehabilitation of water and sewer services.
- Continue to Follow Future Development Guide and Map to determine appropriate limits for expansion of sewer infrastructure.
- Continue to expand provision of public water to areas of the county that currently rely on wells.
- Continue to promote the Chattooga County Solid Waste Management Plan and establish supporting programs.
- Implement measures to reduce solid waste and encourage recycling at all local-government-maintained properties.
- Implement the adopted Hazard Mitigation Plan including mitigation measures for frequent hazards and preventive measures to improve safety around identified critical facilities or infrastructure.

Figure 39: Chattooga County Library. City of Summerville

Land Use

- Continue to Coordinate school site selection between planning officials, neighborhoods, and the school board

Intergovernmental Coordination

- Promote regular-scheduled joint meetings with Chattooga County, Lyerly, Menlo, Summerville, and Trion to address long-range needs as well as short-term issues
- Continue coordination with the Chattooga County Cooperative Extension office
- Encourage public outreach and community agenda implementation

Figure 40: Chattooga County Courthouse. Summerville, GA

- Support the Development of a joint service delivery study to determine potential efficiency and cost savings associated with consolidation of some city and county government services
- Encourage adopting an intergovernmental agreement to share resources for planning, land use regulation, building inspection and code enforcement

REPORT OF ACCOMPLISHMENTS, 2016-2020

NEEDS AND OPPORTUNITIES

Economic Development

ID:	The need or opportunity is to:
ED-1	To adequately maintain and preserve municipal assets and increase of capital for both public works and facility maintenance is needed.
ED-2	Corporation between the local governments to assist with identifying new sites for industrial development.
ED-3	An expansion of broadband availability to provide more opportunity for learning by residents, to attract patrons to retail centers, and incentivize businesses to locate within the area
ED-4	Attract more patrons of park facilities and cultural resources by making improvements to current recreational facilities and constructing new ones when appropriate

Housing

ID:	The need or opportunity is to:
H-1	More affordable middle-income housing is needed to incentivize a younger workforce to stay within the area.
H-2	A senior housing facility is needed.

Transportation

ID:	The need or opportunity is to:
T-1	To ensure all residents have equal access to transportation alternative means of commuting should be identified and pursued.
T-2	To improve traffic safety both educational training and infrastructural improvements are needed.
T-3	Congestion may be decreased through the construction of new alternative routes in certain locations.

Natural and Cultural Resources

ID:	The need or opportunity is to:
NC-1	Coordinating with regional special interest groups, like the Coosa River Basin Initiative on projects such as stream clean-ups, will help preserve natural resources and promote civic pride by volunteerism while protecting these resources for future generations.
NC-2	Increasing access to the Chattooga River will promote more recreation and tourism.
NC-3	Consult and utilize existing or create new recreational-centered plans to stimulate the use and enjoyment of natural and cultural activities.

Community Facilities and Services

ID:	The need or opportunity is to:
CF-1	It is uncertain if the current potable water source is sustainable in the long-term.
CF-2	Expanding infrastructure components such as sewer water and gas
CF-3	Aging sewer piping is allowing stormwater to infiltrate into the sewer pipes increasing the volume of wastewater having to be treated.
CF-4	Protection of critical facilities is of concern areas and appropriate measures to mitigate or eliminate the issue should be taken.

Land Use

ID:	The need or opportunity is to:
LU-1	There is limited property available for industrial use.
LU-2	An interest to evaluate and consider different land use enforcement other than zoning exist

Intergovernmental Coordination

ID:	The need or opportunity is to:
IC-1	The potential to share resources, create congruent municipal codes were possible, and to consolidate some government services to reduce confusion and expand upon the opportunity to provide more municipal services should be evaluated.
IC-2	Promoting and advertising community-related projects and services will help the public feel more engaged in the ongoing local activities.
IC-3	Better communication and coordination are needed between governments and government officials are needed.
IC-4	Working with Regional and State of Georgia partners should continue.

Town of Lyerly

Vision Statement

The Town of Lyerly in correspondence with the Chattooga County community has a collective vision for the area while also upholding some of its own uniqueness and its small-town charm. Within the shared vision, The Town of Lyerly has demarcated its future vision that encompasses the following goals:

- A community that focuses on the improvement of the quality of life for its citizens.
- Prioritizing the revitalization and development of Downtown, its vacant buildings and beautifying the streetscapes.
- To Prioritize the improvement of blight throughout the community
- A community that provides a variation of neighborhood connections such as sidewalks, greenway trails and bike lanes
-
- A community that provides the capacity to cultivate and maintain improved all-around intergovernmental coordination

POLICY STATEMENTS

Economic Development

- Continue coordination of financing for economic development and infrastructure with SPLOST- funded projects.
- Promote the Participation of the Digital Region One Plan Implementation
- Encourage participation in Floor 360 Consortium and Investing in Manufacturing Communities (IMCP); Implement Northwest Georgia Advanced Manufacturing Strategy.
- Encourage partnerships with downtown business owners of vacant Buildings to repurpose vacant store fronts.

Figure 46: Town of Lyerly downtown Banners

Transportation

- Continue to Support planned GDOT improvements of SR-140/Adairsville Road in Floyd County
- Encourage Participation in “Safe Routes to School” program

Natural and Cultural Resources

- Promote coordination with Coosa River Basin initiative (CRBI)/Upper Coosa Riverkeeper, and the Conservation Fund
- Promote the utilization of the Regional Agenda, and Regional Resource Plan in reviewing development projects.

Figure 47: McLeod Memorial Park. Photo courtesy of the Town of Lyerly.

Community Facilities and Services

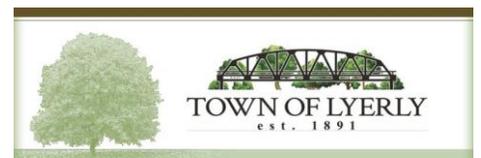

- Promote the coordination of infrastructure expansion to areas identified as appropriate for new development
- Promote orderly expansion and rehabilitation of water and sewer services
- Continue to promote the Chattooga County Solid Waste Management Plan and establish supporting programs
- Implement the adopted Hazard Mitigation Plan including mitigation measures for frequent hazards and preventive measures to improve safety around identified critical facilities or infrastructure.

Figure 48: Town of Lyerly Community Center located at 80 Alpine Street. Photo Courtesy of the Town of Lyerly.

Intergovernmental Coordination

- Continue to work with the Northwest Georgia Regional Commission to coordinate planning and development efforts in the region.
- Promote the development of a joint service delivery study to determine potential efficiency and cost savings associated with consolidation of some city and county government services

REPORT OF ACCOMPLISHMENTS, 2016-2020

TOWN OF LYERLY

Update and implement the adopted Hazard Mitigation Plan including mitigation measures for frequent hazards and preventive measures to improve safety around identified critical facilities or infrastructure.			Ongoing		Policy Statement Water and sewer are the only critical infrastructure
INTERGOVERNMENTAL COORDINATION					
Work with state and federal agencies to identify funding opportunities for community development and transportation needs.	2016-2020		Ongoing		Would like to start Downtown Development Authority
Develop jointly a service delivery study to determine potential efficiency and cost savings associated with consolidation of some city and county government services	2016-2020				Policy Statement
Continue to work with the Northwest Georgia Regional Commission to coordinate planning and development efforts in the region.	2016-2020				Policy Statement

NEEDS AND OPPORTUNITIES

Economic Development

ID:	The need or opportunity is to:
ED-1	Eliminate blight and increase commercial property availability by identifying retail and commercial property that requires repairs or repurposing through strategic planning and appropriate fiscal investing.
ED-2	Develop downtown development Authority

Housing

ID:	The need or opportunity is to:
HD-1	Complete a thorough housing assessment for condition and repair needs.
HD-2	Work with Georgia Initiative for Community Housing (GICH) Program
HD-3	Work with Community Home Investment Program (CHIP).

Transportation

ID:	The need or opportunity is to:
T-1	For residential needs, as well as for recreational opportunities, a sidewalk from the downtown area to the Chattooga River

Natural and Cultural Resources

ID:	The need or opportunity is to:
NC-1	Appropriate upkeep of local municipal parks and cultural resources will reinvigorate them and attract more visitors

Community Facilities and Services

ID:	The need or opportunity is to:
CF-1	There is limited room at some municipal buildings and additions to current structures are needed. In other circumstances, new buildings should be constructed to meet this need.
CF-2	Redundancy and resilience in the conveyance of water to treatment facilities and then the deliverance to residents is lacking and should be addressed.
CF-3	It is uncertain if the current potable water source is sustainable in the long-term.

CITY OF MENLO

Vision Statement

The City of Menlo, being a close-knit community has a shared vision for our city. In parallel with Chattooga county and its surrounding local governments, we strive to encourage and improve the quality of life while preserving our small-town principles, values, and sense of community pride. Being a quaint city with an amazing close small-town feel, along with its collective vision, the City of Menlo has defined its future vision that contains the following goals:

- A community that takes pride in its natural, cultural, and historic resources for preservation.
- A community that preserves the economy for its residents included but not limited to industrial professions while working to seek new employment opportunities
- A community who works to seek opportunities for economic growth and development
- A community that works to seek resources to provide our residents
- A community that focuses on the improvement of blight throughout city and makes it a priority in providing a more livable and sustainable environment.
- A community that works to be more collaborative amongst our community and surrounding local governments to foster overall better intergovernmental coordination

NEEDS AND OPPORTUNITIES

Economic Development

ID:	The need or opportunity is to:
ED-1	To adequately maintain and preserve municipal assets and increase of capital for both public works and facility maintenance is needed.
ED-2	Corporation between the local governments to assist with identifying new sites for industrial development.
ED-3	An expansion of broadband availability to provide more opportunity for learning by residents, to attract patrons to retail centers, and incentivize businesses to locate within the area.
ED-4	Attract more patrons of park facilities and cultural resources by making improvements to current recreational facilities and constructing new ones when appropriate

Housing

ID:	The need or opportunity is to:
H-1	More affordable middle-income housing is needed to incentivize a younger workforce to stay within the area.

Transportation

ID:	The need or opportunity is to:
T-1	To ensure all residents have equal access to transportation alternative means of commuting should be identified and pursued.
T-2	To improve traffic safety both educational training and infrastructural improvements are needed.
T-3	Congestion may be decreased through the construction of new alternative routes in certain locations.

Natural and Cultural Resources

ID:	The need or opportunity is to:
NC-1	Coordinating with regional special interest groups, like the Coosa River Basin Initiative on projects such as stream clean-ups, will help preserve natural resources and promote civic pride by volunteerism while protecting these resources for future generations.
NC-2	Increasing access to the Chattooga River will promote more recreation and tourism.
NC-3	Consult and utilize existing or create new recreational-centered plans to stimulate the use and enjoyment of natural and cultural activities.

Community Facilities and Services

ID:	The need or opportunity is to:
CF-1	Coordinating with regional special interest groups, like the Coosa River Basin Initiative on projects such as stream clean-ups, will help preserve natural resources and promote civic pride by volunteerism while protecting these resources for future generations.
CF-2	Expanding infrastructure components such as sewer water and gas
CF-3	Aging sewer piping is allowing stormwater to infiltrate into the sewer pipes increasing the volume of wastewater having to be treated.
CF-4	Protection of critical facilities is of concern areas and appropriate measures to mitigate or eliminate the issue should be taken.

Intergovernmental Coordination

ID:	The need or opportunity is to:
IC-1	The potential to share resources, create congruent municipal codes were possible, and to consolidate some government services to reduce confusion and expand upon the opportunity to provide more municipal services should be evaluated.
IC-2	Promoting and advertising community-related projects and services will help the public feel more engaged in the ongoing local activities.
IC-3	The potential to share resources, create congruent municipal codes were possible, and to consolidate some government services to reduce confusion and expand upon the opportunity to provide more municipal services should be evaluated.
IC-4	Working with Regional and State of Georgia partners should continue.

Land Use

ID:	The need or opportunity is to:
LU-1	There is limited property available for industrial use.
LU-2	An interest to evaluate and consider different land use enforcement other than zoning exist.

CITY OF SUMMERVILLE

Vision Statement

The City of Summerville in alliance with Chattooga county and its surrounding local governments, strives to promote growth, economic opportunities, development, and the improvement of the quality of life for all its residents. Having the sensibility and pride within the community and core principles, the City of Summerville has defined its future vision that contains the following goals:

- A community focused on not only the growth and development of the economy, but the growth and development of the community as a whole.
- A community that thrives to develop and provide educational and service resources to and for its residents.
- To provide an adequate amount of housing for all citizens with affordable rates
- A community that works to preserve its housing structures
- To provides adequate recreational options such as trails, sidewalks, streetscapes, and bike accessibility.
- To achieve broadband connectivity everywhere.
- To maintain positive, cooperative, and effective relationship between Chattooga County, City of Menlo, Town of Lyerly and the Town of Trion, as well as other public agencies and organizations.

Figure 56: City of Summerville, GA City Hall

Figure 57: Downtown Summerville, GA Depot

POLICY STATEMENTS

Economic Development

- Promote Economic growth
- Continue coordination for financing of economic development and infrastructure with SPLOST-funded projects.
- Promote the participation in Digital Region One Plan Implementation.
- Promote the participation in Floor 360 Consortium and Investing in Manufacturing Communities (IMCP); Implement Northwest Georgia Advanced Manufacturing Strategy.

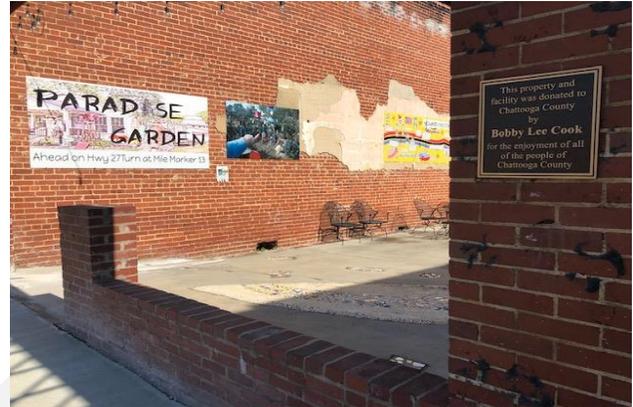

Figure 58: Paradise Garden. Downtown Summerville, GA.

Housing

- Work to Demolish substandard and blighted structures.

Transportation

- Promote the development of a Joint Countywide Multi-modal Transportation Plan, in coordination with GDOT and NWGRC.
- Support planned GDOT improvements of SR-140/Adairsville Road in Floyd County

Figure 59: Howard Finster House. Summerville, GA

Natural and Cultural Resources

- Continue the enforcement of sediment and erosion control requirements to mitigate negative impacts of construction site run-off on waterways.
- Promote the utilization of the Regional Agenda, and Regional Resource Plan in reviewing development projects.

Community Facilities and Services

- Continue coordination of infrastructure expansion to areas identified as appropriate for new development
- Continue to promote the Chattooga County Solid Waste Management Plan and establish supporting programs

Work with state and federal agencies to identify funding opportunities for community development and transportation needs	2016-2020		ongoing		Apply bi-yearly for CDBG grant. Working with both state and federal agencies. Received grant for street scapes, parks, sidewalks, will provide project list and years
Establish regular-scheduled joint meetings with Chattooga County, Lyerly, Menlo, Summerville, and Trion to address long-range needs as well as short-term issues	2016-2020				
Consider jointly adopting an intergovernmental agreement to share resources for planning, land use regulation, building inspection and code enforcement	2016-2020				Policy Statement
Coordination with water planning districts.	2016-2020	X			Interconnections with Trion, Chattooga County, Lyerly and Menlo. Gas with Trion

NEEDS AND OPPORTUNITIES

Economic Development

ID:	The need or opportunity is to:
ED-1	There is a desire for diversification of manufacturing/industrial development but there is a lack of specialized training for the skills required to meet such demand. Partnerships between the local high school and post-secondary educational institutes, such as Georgia Northwestern Technical College, where younger workers can transition into future employment
ED-2	An increase in water, sewer, and gas availability is needed to incentivize new industrial investments.
ED-3	A diversity of industry is needed.

Housing

ID:	The need or opportunity is to:
H-1	More affordable middle-income housing is needed to incentivize a younger workforce to stay within the area.
H-2	The presence of derelict housing due to abandonment, financial restraint of the homeowner, or deficiency inability to upkeep housing in case of the elderly needs to be addressed to eliminate blight and to ensure sufficient and safe living dwellings.
H-3	Limited property availability and environmental restraints decreases potential future new construction housing

Transportation

ID:	The need or opportunity is to:
T-1	To ensure all residents have equal access to transportation alternative means of commuting should be identified and pursued.
T-2	To improve traffic safety both educational training and infrastructural improvements are needed.
T-3	Congestion may be decreased through the construction of new alternative routes in certain locations.

Natural and Cultural Resources

ID:	The need or opportunity is to:
NC-1	Appropriate upkeep of local municipal parks and cultural resources will reinvigorate them and attract more visitors
NC-2	Increasing access to the Chattooga River will promote more recreation and tourism.
NC-3	Consult and utilize existing or create new recreational-centered plans to stimulate the use and enjoyment of natural and cultural activities.

Community Facilities and Services

ID:	The need or opportunity is to:
CF-1	Some sewer and water facilities have limited space and treatment infrastructure is outdated, at these locations' additions to the facilities and replacement of equipment are needed.
CF-2	There is limited room at some municipal buildings and additions to current structures are needed. In other circumstances, new buildings should be constructed to meet this need.
CF-3	Protection of critical facilities is of concern areas and appropriate measures to mitigate or eliminate the issue should be taken.
CF-4	There is a lack of broadband availability within municipalities and at recreational facilities.
CF-5	There needs to be more opportunities for team sports.

Intergovernmental Coordination

ID:	The need or opportunity is to:
IC-1	The potential to share resources, create congruent municipal codes were possible, and to consolidate some government services to reduce confusion and expand upon the opportunity to provide more municipal services should be evaluated.
IC-2	Better communication and coordination are needed between governments and government officials are needed.
IC-3	Working with Regional and State of Georgia partners should continue.

Land Use

ID:	The need or opportunity is to:
LU-1	Zoning and building codes could be evaluated to best address vacant and dilapidated housing.
LU-2	There is limited property available for industrial use.

DRAFT

TOWN OF TRION

Vision Statement

The town of Trion being a passionate community rich in history, in agreeance with Chattooga County and its municipalities, strives to provide and promote growth and development, economic opportunities and an overall better way of life for its residents. Based on its shared vision, the Town of Trion has defined its future vision that includes the following goals:

- A community focused on providing a diversified economy which provides improvement and growth of the manufacturing industry and workforce
- A community that achieves and is sufficient in providing resources, partnerships, and valuable relationships for its residents
- A community that prioritizes the accessibility and attainability of housing options for its residents
- A community focused on the preservation of its natural, cultural, and historical resources
- A community that works together to guide future development and preservation of land use
- A community that offers the capacity to encourage and maintain improved all-around intergovernmental coordination

POLICY STATEMENTS

Economic Development

- Continue the successful coordination for financing of economic development and infrastructure with SPLOST-funded projects
- Promote the participation of the Digital Region One Plan Implementation
- Encourage the Formation of strong partnerships between educational institutions and industry

Housing

- Promote usage of federal historic housing rehabilitation tax credits

Transportation

- Continue to Strengthen the relationship with Bike! Walk! Northwest Georgia
- Continue to Support planned GDOT improvements of SR-140/Adairsville Road in Floyd County

Natural and Cultural Resources

- Continue to enforce sediment and erosion control requirements to mitigate negative impacts of construction site run-off on waterways.
- Continue to Coordinate with water planning districts
- Promote the Utilization of the Regional Agenda, and Regional Resource Plan in reviewing development projects.
- Coordinate infrastructure expansion to areas identified as appropriate for new development.
- Promote orderly expansion and rehabilitation of water and sewer services.
- Continue to promote the Chattooga County Solid Waste Management Plan and establish supporting programs

NEEDS AND OPPORTUNITIES

Economic Development

ID:	The need or opportunity is to:
ED-1	An increase in water, sewer, and gas availability is needed to incentivize new industrial investments.
ED-2	To adequately maintain and preserve municipal assets and increase of capital for both public works and facility maintenance is needed.
ED-3	Increase inclusivity, civic pride, and a sense of purpose by increasing job availability to those that are disabled.

Housing

ID:	The need or opportunity is to:
H-1	The presence of derelict housing due to abandonment, financial restraint of the homeowner, or deficiency inability to upkeep housing in case of the elderly needs to be addressed to eliminate blight and to ensure sufficient and safe living dwellings
H-2	Flooding is impacting private property and the well-being of residents

Transportation

ID:	The need or opportunity is to:
T-1	To ensure all residents have equal access to transportation alternative means of commuting should be identified and pursued.
T-2	To improve traffic safety both educational training and infrastructural improvements are needed
T-3	For residential needs, as well as for recreational opportunities, sidewalk extensions would improve access to commercial areas and the Chattooga River.
T-4	Congestion may be decreased through the construction of new alternative routes in certain locations.

Natural and Cultural Resources

ID:	The need or opportunity is to:
NC-1	Coordinating with regional special interest groups, like the Coosa River Basin Initiative on projects such as stream clean-ups, will help preserve natural resources and promote civic pride by volunteerism while protecting these resources for future generations.

Community Facilities and Services

ID:	The need or opportunity is to:
CF-1	Some sewer and water facilities have limited space and treatment infrastructure is outdated, at these locations' additions to the facilities and replacement of equipment are needed.
CF-2	An increase in water, sewer, and gas availability is needed to incentivize new industrial investments.
CF-3	It is uncertain if the current potable water source is sustainable in the long-term
CF-4	Expanding infrastructure components such as sewer water and gas.
CF-5	Protection of critical facilities and the wellbeing of citizens from a natural hazardous event is of concern areas and appropriate measures to mitigate or eliminate the issue should be taken.
CF-6	There needs to be more opportunities for team sports.

Intergovernmental Coordination

ID:	The need or opportunity is to:
IC-1	The potential to share resources, create congruent municipal codes were possible, and to consolidate some government services to reduce confusion and expand upon the opportunity to provide more municipal services should be evaluated.
IC-2	Better communication and coordination are needed between governments and government officials are needed.
IC-3	Working with Regional and State of Georgia partners should continue.

Land Use

ID:	The need or opportunity is to:
LU-1	Zoning and building codes could be evaluated to best address vacant and dilapidated housing
LU-2	There is limited property available for industrial use.
LU-3	Mitigate adverse effects of soil moving construction activities

APPENDIX

APPENDIX A: COMMUNITY SURVEY RESULTS

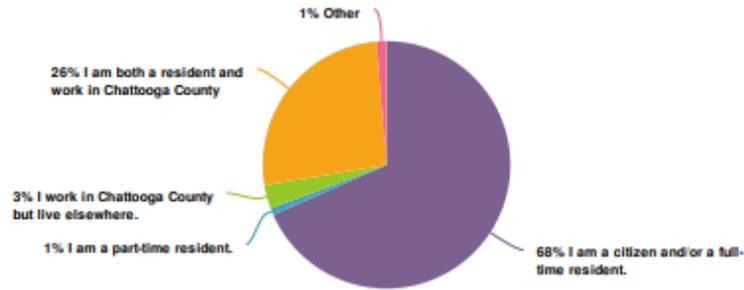

Report for The Growth and Future of Chattooga County 2021-2025

Response Counts

Totals: 229

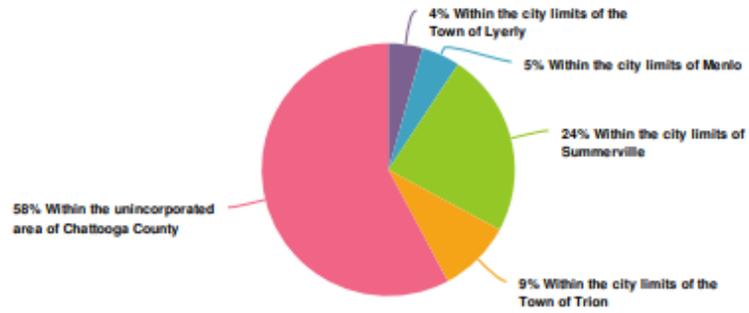

1. What is your connection to Chattooga County, Town of Lyerly, City of Menlo, City Summerville or Town of Trion? (Select One Only)

Value	Percent	Responses
I am a citizen and/or a full-time resident.	68.4%	156
I am a part-time resident.	0.9%	2
I work in Chattooga County but live elsewhere.	3.1%	7
I am both a resident and work in Chattooga County	26.3%	60
Other	1.3%	3

Totals: 228

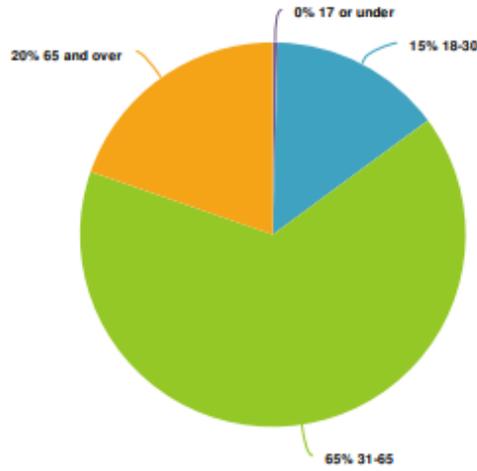

2. Where is your residence or place of business located?

Value	Percent	Responses
Within the city limits of the Town of Lyerly	4.4%	10
Within the city limits of Menlo	4.9%	11
Within the city limits of Summerville	23.6%	53
Within the city limits of the Town of Trion	9.3%	21
Within the unincorporated area of Chattooga County	57.8%	130

Totals: 225

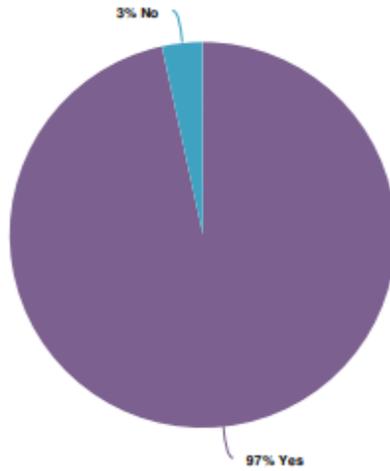

3. What age group do you represent?

Value	Percent	Responses
17 or under	0.4%	1
18-30	14.5%	33
31-65	65.4%	149
65 and over	19.7%	45

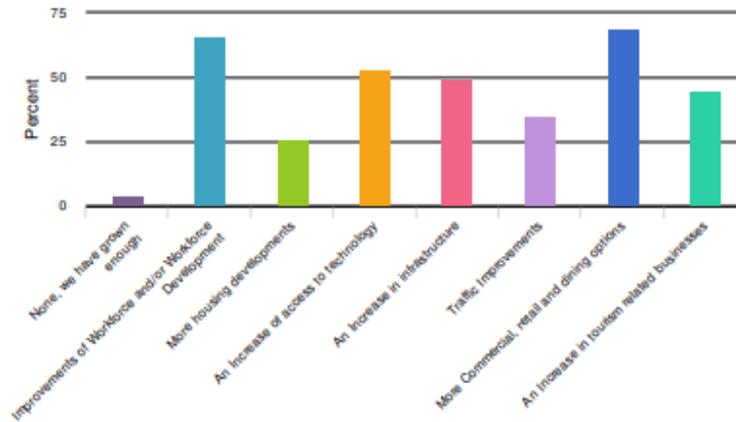

Totals: 228

4. Are you interested in growth in your community?

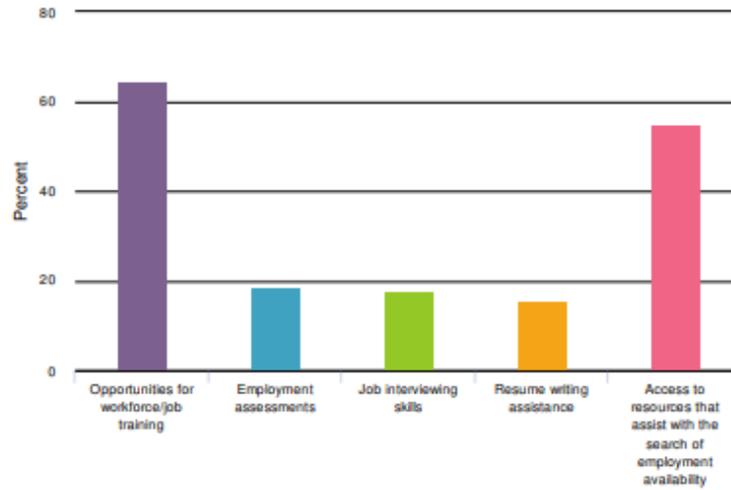

Value	Percent	Responses
Yes	96.6%	200
No	3.4%	7
Totals: 207		

5. What type of growth are you interested in seeing within your community? (Select all that apply)

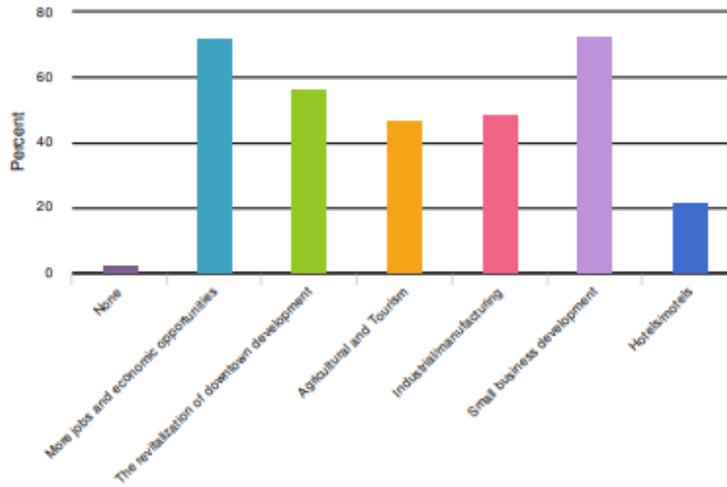

Value	Percent	Responses
None, we have grown enough	3.9%	8
Improvements of Workforce and/or Workforce Development	66.2%	137
More housing developments	26.1%	54
An Increase of access to technology	53.6%	111
An Increase in infrastructure	49.3%	102
Traffic Improvements	35.3%	73
More Commercial, retail and dining options	68.6%	142
An Increase in tourism related businesses	44.9%	93

6. Which workforce related options would you like assistance in?

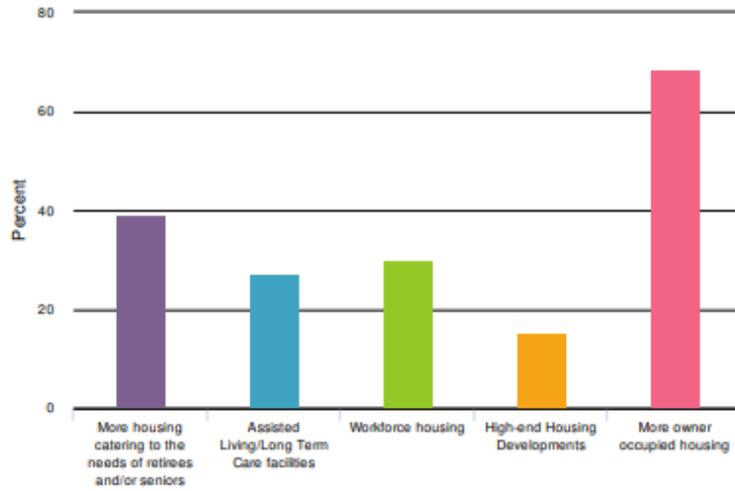

Value	Percent	Responses
Opportunities for workforce/job training	64.4%	132
Employment assessments	18.5%	38
Job interviewing skills	17.6%	36
Resume writing assistance	15.6%	32
Access to resources that assist with the search of employment availability	55.1%	113

7. What type of economic development are you interested in seeing in your community? (Select all that apply)

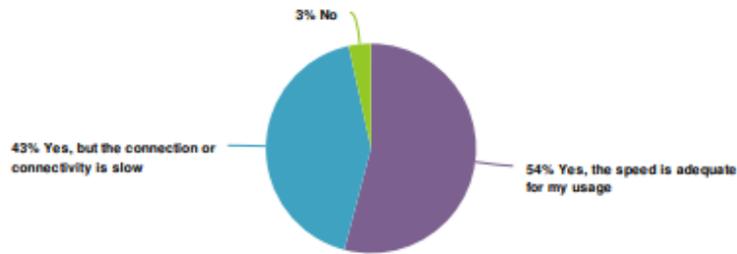

Value	Percent	Responses
None	2.4%	5
More jobs and economic opportunities	72.0%	149
The revitalization of downtown development	56.5%	117
Agricultural and Tourism	46.9%	97
Industrial/manufacturing	48.3%	100
Small business development	72.5%	150
Hotels/motels	21.3%	44

8. What type of Housing are you interested in seeing be developed in your community? (Select all that apply)

Value	Percent	Responses
More housing catering to the needs of retirees and/or seniors	39.1%	81
Assisted Living/Long Term Care facilities	27.1%	56
Workforce housing	30.0%	62
High-end Housing Developments	15.5%	32
More owner occupied housing	68.6%	142

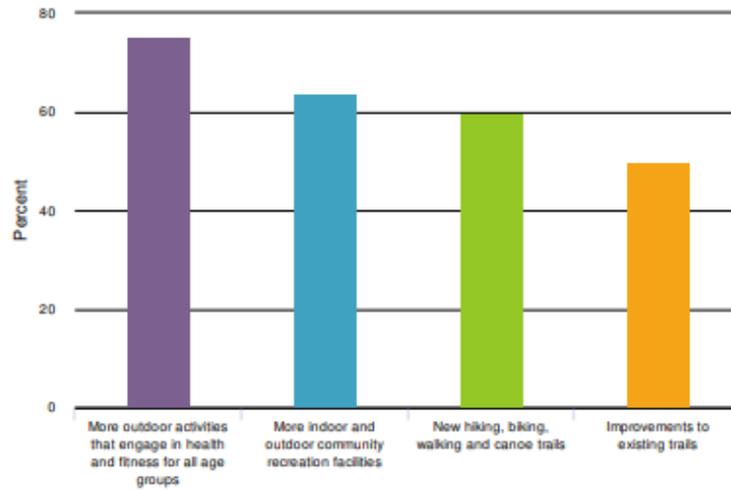

9. Do you have internet access at your home and or business in Chattooga County?

Value	Percent	Responses
Yes, the speed is adequate for my usage	54.1%	112
Yes, but the connection or connectivity is slow	42.5%	88
No	3.4%	7

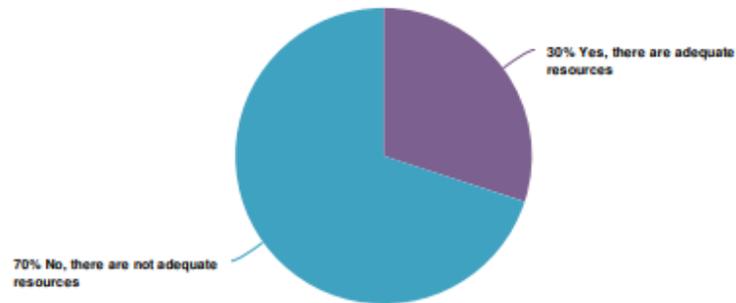

Totals: 207

10. What type of recreational options would you like to see in your community?
(Select all that apply)

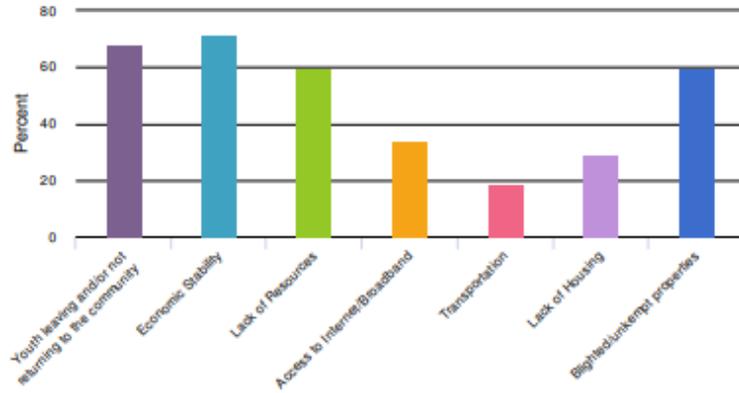

Value	Percent	Responses
More outdoor activities that engage in health and fitness for all age groups	75.4%	156
More indoor and outdoor community recreation facilities	63.8%	132
New hiking, biking, walking and canoe trails	59.9%	124
Improvements to existing trails	49.8%	103

11. Manufacturing is a driving force for the economy in Chattooga County, covering nearly 42% of the jobs in the county. With changes in trends and technology, do you think manufacturing companies have the resources to remain competitive?

Value	Percent	Responses
Yes, there are adequate resources	30.0%	62
No, there are not adequate resources	70.0%	145
Totals: 207		

12. What do you feel poses the greatest threat to your community? (Select all that apply)

Value	Percent	Responses
Youth leaving and/or not returning to the community	68.4%	141
Economic Stability	71.4%	147
Lack of Resources	59.7%	123
Access to Internet/Broadband	33.5%	69
Transportation	18.4%	38
Lack of Housing	29.1%	60
Blighted/unkept properties	59.7%	123

Population

The population of Chattooga County and the cities within it provide an important view of the people and their characteristics. It can help identify future growth, employment opportunities, housing needs and impact on future land use.

Total Population

According to the U.S. Census Bureau, Chattooga County's 2018 population was 24,790 which gave it a ranking of 75 out of 159 counties in Georgia. The populations of each city in Chattooga County are listed below.

Prior Growth

Comparing the population changes of each jurisdiction from 2010 to 2018 is shown below.

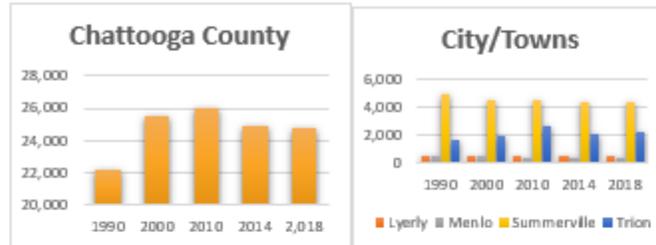

Population of Chattooga County and its Cities – 1990, 2000, 2010, 2014, 2018

Area	1990	2000	2010	2014	2018
Chattooga County	22,242	25,470	26,015	24,857	24,790
Lyerly	493	488	624	483	541
Menlo	538	485	438	452	439
Summerville	5,025	4,556	4,573	4,442	4,339
Trion	1,661	1,993	2,684	2,124	2,322

Source: U.S. Census Bureau, 2010 STF 1; 2014 SF 1; 2018 SF 1

Chattooga County experienced an annual growth rate of 0.41% between 1990 and 2018. Many people, including metro Atlanta citizens, purchased homes and relocate in the beautiful northwest Georgia Mountains. Overall, Chattooga County was a county that experienced a portion of that growth with an overall population growth of 11%. The Town of Lyerly with a -0.10% and City of Menlo fell below the growth trend with a -0.99% in the first decade, with Lyerly having an increase of only 2.8% in the second and Menlo at a -0.96% falling below the growth trend rate. The City of Summerville also fell below the growth trend with a -0.9% growth rate in the first decade, but an increase of only 0.04% in the second. The Town of Trion underwent a different movement with 2% growth by 2000, then a 3.5% increase in the 2000-2010 decade. Overall, the county has experienced slower growth in population; trends can be seen in the graph below.

Households

The U.S. Census defines a household as a group of persons sharing the same housing unit, whether related or not. A household may or may not constitute a family. For example, a single person living alone in an apartment is considered to be a household, but not a family. A family is a household with two or more family members.

The next table illustrates the total number of households and average household size for Georgia, Chattooga County, Lyerty, Menlo, Summerville and Trion. Each jurisdiction gives evidence of slight growth over the decade. Average household size follows the same pattern for each area. With growing populations an increase in households, such as this, is to be expected.

Total Number of Households and Average Household Size (Persons)

Year	Chattooga County		Lyerly		Menlo		Summerville		Trion		Georgia	
	Number	Size	Number	Size	Number	Size	Number	Size	Number	Size	Number	Size
2000	9,577	2.49	206	2.46	234	2.12	1,844	2.39	816	2.4	3,281,737	2.71
2010	8,870	2.52	225	2.69	199	2.2	1,809	2.33	903	2.74	4,088,801	2.67

Source: U.S. Census Bureau, 2000, 2010

Study of Census data of household occupancy shows similar unit vacancy for all locations making the average vacancy for the county 19.3%.

Age Distribution

The median age of persons living in the 15 counties is 38.3 years. Chattooga is slightly older (39.3 years). 2011 Census estimates are used in the table. Chattooga ranks third among other counties in the NWGRC region regarding median age. Due to the cool mountain temperatures recent retirees are typically attracted to places such as Pickens and Gilmer counties, which display the highest median age in the region.

Median Age – for Selected Locations in the NWGR

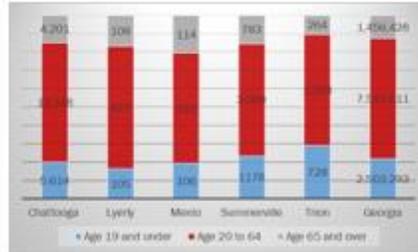

Area	Median Age (years)
Bartow	36.2
Catoosa	38.3
Chattooga	39.5
Dade	39.7
Fannin	39.0
Floyd	37.6

Chattooga County Joint Comprehensive Plan 2021-2025

The chart below has a population grouped by three age segments and shows the percentage for each. They are age 19 and under, age 20 to 64 and age 65 and over. The results shown in the graph below seem to show similar age group distribution in all areas. However, age 20 to 64 appears to be the largest percentage of individuals by far in every group.

Age Group Percentage for Various Locations – 2018 Census

Race

A breakdown of racial groups by number and percent is presented. The racial compositions of the various jurisdictions of Chattooga County provide the following statistics:

Race and Ethnicity (Hispanic) Groups – Chattooga County Jurisdictions and Georgia - 2018

The table below illustrates median age changes from 2010 to 2014 as well as how those changes affected Chattooga County and the state of Georgia. The county became older at a faster pace than the state. All races experienced an increase in median age. The Black and Hispanic median ages have decreased and still remain the youngest by race.

Median Age by Race

Location	Year	All	White	Black	Hispanic
Chattooga	2010	35.4	41.1	36.5	24.4
	2014	36.1	39.6	32.8	25.7
Georgia	2010	35.3	39.2	31.7	25.3
	2014	37	39.3	32.3	25.7

Source: U.S. Census Bureau 2010, and 2014

The Hispanic population in Chattooga County and its communities has grown in sync with the total population. The percentage of people of Hispanic origin still lies far below the state's average.

Hispanic Population in Selected locations – 2010 and 2014 Census

Chattooga County Joint Comprehensive Plan 2021-2025

Education Attainment

Employee pay and therefore living standard most often are related to educational attainment. A higher education level of the local population may attract companies that need more skilled workers. The following information examines Chattooga County and its 14 sister counties. The municipality's data is also given. To view progress made in improving education in the planning area, there is information since 1980. The least educated group, those with less than a 9th grade education, has been on a decline. Those with a college degree or higher have also steadily improved. Unfortunately, neither group has yet reached the Georgia percentages.

A look at how household income is distributed by income ranges is below. Percentage of household income for each range is shown for each jurisdiction. Menlo, Summerville and Trion exceed the state's poorest income range percentage, where Lyerly does not. Approximately half of the county's population (49%) is making \$25,000-\$75,000. The amount is much higher than that of the state's (43%). In the top range of households (\$200,000 or more) the county's percentage remains below that of the states

Poverty

Poverty thresholds are set by the Census Bureau and vary by family size and composition. Chattooga County has a slightly higher percentage than that of the region and the state for 2018. The same results are seen in the 2010 census as well.

Chattooga County has two school systems: Chattooga County Schools and Trion City Schools. Comparing the school systems in Chattooga County with other school systems in the NWGRC region is shown in the table below. Chattooga County School is ranked 12th where Trion is ranked 4th among poverty rates in the region in order from highest to lowest rate.

**Poverty among Children Ages 5-17 Years Living in Families:
NWGRC Area School Districts, 2018**

District Name	Population age 5 to 17 years	Percentage of population 5 to 17 in poverty

APPENDIX C: ENVIRONMENTAL PLANNING CRITERIA

Chattooga County Environmental Planning Criteria

Introduction

The Georgia Planning Act of 1989, updated as of October 1, 2018, provides “Minimum Standards and Procedures for Local Comprehensive Planning” (Chapter 110-12-1. These standards provide a framework for the development, management, and implementation of local comprehensive plans at the local, regional, and state government level. They reflect the State’s interest in both healthy and economically vibrant cities and counties. As a part of these standards, during the preparation of the comprehensive plan, each community must review both the region’s Regional Water Plan (Coosa North Georgia Water Plan) and the Department of Natural Resources “Environmental Planning Criteria”(DNR Rules Environmental Planning Criteria) rules established by Georgia code (O.C.G.A 12- 2-8). A review of these resources informs local Government Officials so to determine if local implementation practices or development regulations need to be altered to address the protection of the locally important natural resources. The guidance of best management practices is given through Georgia’s Department of Natural Resources’ (DNR) Environmental Planning Division’s Rules for Environmental Planning Criteria, Chapter 391-3-16. The criteria established addresses protection for water supply watersheds, protection of groundwater recharge areas, wetlands protection, river corridor protection, and mountain protection.

Surface Water Supply and Environmental Protections

Georgia Environmental Planning Criteria provides a guide for the development of water supply watersheds so as not to contaminate a water source to a point where it may not be treated so to meet drinking water standards. These practices also minimize water treatment costs for local government entities. DNR classifies water supply watersheds as either “Large” water supply watersheds, those of greater than 100 square miles upstream from the water supply intake; or “small” water supply drainage basins, those of less than 100 square miles upstream from the water supply intake. The State of Georgia given guidance is for surface water protection through the following three management practices: the establishment of stream buffers, impervious surface density limitation within stream setbacks, and prohibiting septic tank and septic tank drain fields within setback areas (391-3-16.01). These management practices may be adopted as municipal codes and ordinances and enforced if desired.

A review of the Coosa North Georgia Regional Water Plan lists the City of Summerville as the only municipality to provide its drinking water from a surface water source. The city receives its supply from Raccoon Creek and Lowe Spring, both are tributaries to the larger Chattooga river and are a Small Supply Watersheds. The following table provides a summary of water supply permitted withdrawal and actual withdrawal quantity.

<i>Coosa North Georgia Municipal Surface Water Withdrawals Monthly Average Permit Limit and 2019 Daily Withdrawal (MGD)</i>					
Permit Number	Permit Holder	County	Source	Permitted Monthly Average (MGD)	Average 2019 Withdrawals (MGD)
027-14002-02	Summerville, City of	Chattooga	Raccoon Creek	2.5	1.96
027-1402-04	Summerville, City of	Chattooga	Lowe Spring	0.5	0.21

Other surface water withdrawal permits listed as issued by the Georgia EPD are for the industries of Mount Vernon Mills in Trion and Mohawk Industries (Georgia EPD Database of permitted nonfarm surface water withdrawals).

<i>Coosa North Georgia Municipal Surface Water Withdrawals Monthly Average Permit Limit and 2019 Daily Withdrawal (MGD)</i>					
Permit Number	Permit Holder	County	Source	Permitted Monthly Average (MGD)	Average 2019 Withdrawals (MGD)
027-1401-03	Mount Vernon Mills	Chattooga	Trion Springs	9.90	6.60
027-1402-05	Mohawk Industries, Inc	Chattooga	Chattooga River, Raccoon Creek (back up)	4.50	4.00

Mount Vernon Mills receives its water Trion Springs and supplies The Town of Trion (Jacobs Redundancy and Emergency Interconnectivity Plan). The Town of Trion is also listed as purchasing water from the City of Summerville. Mohawk Industries also has a surface water permit for the withdrawal of water from the Chattooga River and a backup supply being from Raccoon Creek, but Mohawk Industries is not classified as a water supplier.

Based on water intake location and the amount of area upstream, the City of Summerville would be considered a small water supply watershed, recommended best management practices would be the establishment and maintenance of a vegetated buffer of 100 feet on both sides from the stream bank, no impervious surface within a 150-foot setback, and no installation of a septic tank or septic drain field within the setback area. Additional steps that may be taken for streams adjoining and flowing upstream from the main water supply watershed tributary are as follow: a

buffer of 50-feet on both sides of the stream, no impervious surfaces within a 75-foot setback, and prohibition of septic tank and drain fields within the setback.

Though stream buffers and setbacks are not required to be adopted as ordinances or code by the local municipality, they are best management practices encouraged by the State of Georgia and are addressed in Georgia’s Soil and Water Commission’s manual. It calls for a 50-foot buffer on all trout streams. When these trout streams are listed by watershed, it means that all the perennial tributaries flowing into the main stream, and the main stream itself, are trout waters. Though there are no primary trout streams within Chattooga County, there are several secondary trout streams. These streams are listed below by watershed. Taliaferro Creek watershed is the only State of Georgia stocked trout stream.

Secondary Trout Streams	Allgood Branch watershed
	Chappel Cr. watershed
	Chelsea Cr. watershed
	East Fork Little R. watershed
	Hinton Cr. watershed
	Kings Cr. watershed
	Little Armuchee Cr. watershed upstream from Co Rd. 326
	Mt. Hope Cr. (Coon Cr.) watershed
	Perennial Spring watershed
	Raccoon Cr. watershed upstream from GA Hwy 48
	Ruff Cr. watershed
	Storey Mill Cr. watershed
	<i>Taliaferro Cr. watershed</i>

Another benefit of implementing the environmental criteria for water supply watershed guidelines is to help meet requirements of the U.S. Clean Water Act and to mitigate potential water quality issues that may exist. Section 305 of the Clean Water Act requires states to assess waters every 2 years. The State of Georgia EPD provides a list of water bodies not meeting the minimum water quality requirements and standards needed to support aquatic life and is a human health hazard (Georgia EPD 303 and 305 integrated list). The streams not meeting these standards are listed in the table below by reach name, location, criterion violated, potential causes, extent, and designated use.

Reach Name	Reach location	Criterion violated	Potential causes	Extent	Use
Alpine Creek	Tributary at Peach Orchard Road	Bio Fish, Bio-Macroinvertebrate	Non-point source	3 Miles	Fishing
Alpine Creek	Orchard Road to Stateline	Bio Fish, Dissolved Oxygen, Bio-Macroinvertebrate	Non-point source	3 Miles	Fishing
Dry Creek to Chattooga Rive	Upstream Chattooga River, Trion	Fecal Coliform	Non-point source	2 Miles	Fishing
Chappel Creek	Upstream Chattooga River, Trion	Fecal Coliform	Non-point source	4 Miles	Fishing
Chattooga River	Henry Branch to Lyerly	Dissolved Oxygen	Non-point source	8 Miles	Fishing
Chattooga River	Cane Creek, Trion to Henry	Fecal Coliform	Non-point source	7 Miles	Recreation
Chattooga River	Lyerly to Stateline	Fecal Coliform	Non-point source	7 Miles	Recreation
East Armuchee Creek	Dry Creek to West Armuchee	Pending	Non-point source	4 Miles	Fishing
East Fork Little River	Headwaters to Alabama State Line (near Menlo, Ga)	Bio-Macroinvertebrate	Non-point source	15 Miles	Fishing
Spring Creek	Tributary to Teloga Creek Walker, Chattooga County	Fecal Coliform	Non-point source	5 Miles	Fishing
Tributary to Perennial Springs	Headwaters to Perennial Creek	Bio Fish	Non-point source	5 Miles	Fishing
Tributary to Ruff Creek	Headwaters to Ruff Creek	Fecal Coliform, Ecoli	Non-point source	4 Miles	Fishing

The City of Summerville and the Town of Trion has addressed minimum stream buffer widths within their municipal code. The City of Summerville did address both in Chapter 109 (Natural Resources Ordinances) section 225 requires a minimum of a 50-foot buffer with an additional 25-foot setback and no septic tank or drain field installation allowed. Though the Town of Trion did not specifically address vegetated buffers and setbacks by name, in Chapter 109 (Natural Resources and Environmental Protection) section 257, it does state that no activities may be conducted within 25-foot, as measured by the stream bank. Both the City of Summerville and the Town of Trion does allow for variances. The municipalities of Chattooga County, Menlo, and Lyerly does not specify any listed ordinances for vegetated buffers or stream setbacks.

Additional environmental protection criteria discussed is Georgia Protected River. A "Protected river" means any perennial river or watercourse with an average annual flow of at least 400 cubic feet per second as determined by appropriate U.S. Geological Survey documents. The Criteria for River Corridor Protection is provided in Chapter 391-3-16-.04 to explain the importance of river corridors as a vital resource for the protection of habitat, a site for recreation, and a source of clean drinking water. Though the Georgia DNR Environmental Criteria calls for the creation of a River Corridor Protection Plan, it seems as if this requirement is not enforced. No protection plan was found for the Chattooga River.

Groundwater Protection

The Georgia DNR Environmental Criteria also calls for the protection of Groundwater Recharge Areas (391-3-16-.02). The municipal governments of Chattooga County, the Town of Lyerly, and the City of Menlo receive its drinking water from groundwater sources.

Coosa North Georgia Municipal Groundwater Withdrawals Monthly Average Permit Limit and 2019 Average Daily Withdrawal (MGD)					
Permit Number	Permit Holder	County	Aquifer	Permitted Monthly Average (MGD)	Average 2019 Withdrawals (MGD)
027-0001	Chattooga County Water District No. 1	Chattooga	Paleozoic Limestone	1.21	0.89
027-0002	Lyerly, Town of	Chattooga	Consauga FM, Knox Group	0.28	0.32
027-0003	Menlo, City of	Chattooga	Knox Group	0.19	0.05

Recharge areas are locations where water may seep into the aquifer and is a possible location for pollution introduction into groundwater drinking supply. The DCA Environmental Criteria Map (Georgia DCA Map Atlas), shows a high to moderate level of susceptibility of pollution to groundwater within Chattooga County. Georgia DNR applied guidelines to groundwater protection is found in chapter 391-3-16-.02 of Georgia DNR Rules for Environmental Planning Criteria. These requirements include, but are not limited to, synthetic liners for landfills, on-site treatment and collection system for hazardous substances, no new land application systems for waste, and minimum lot sizes for new septic tanks and drain field installation. A review of the City of Summerville code shows that hazardous material treatment, storage, and discharge to a local sewer is discussed under utilities in Chapter 32-6 and 7. The Town of Trion does so also in Chapter 62-6 and 7. The Town of Lyerly also discusses this in its municipal code. No code or ordinances found or the City of Menlo.

Wetland and Mountain Protections

Other environmental considerations addressed through the Environmental Planning Criteria are Wetland Protection and Mountain Protection (O.C.G.A 391-3-16.03, O.C.G.A 391-3-16-.05, and O.C.G.A 391-3-16-.03). Local governments and regional development centers should acknowledge the importance of wetlands as a public good. Wetlands are protected under Section 404 of the Clean Water Act. There are a limited number of wetlands within Chattooga County, most of which are within the floodplain area adjacent to streams and rivers. None of the municipal governments of Chattooga County discuss wetlands within their municipal codes. Mountain protection does not apply as there are no protective mountains within Chattooga County.

APPENDIX D: COMMUNITY PARTICIPATION DOCUMENTATION

Words Of Hope

By Pastor Mike Smith "Letters, Phone Calls and Visits"

It was almost 30 years ago when my father decided to join the Army. One day he was at home, getting out in a headlock and carrying me around the house, the next, he was gone. I was too young to understand life and the worries that come with it. My dad did. What I remember most was his driving to school, trying to take the trees from the road as it is a difficult thing to watch a son or daughter from, especially then, the Vietnam War was still going on.

Santa Cancelo Golf Tourney Due to the current situation regarding COVID-19, Santa in Uniform, Inc., is cancelling this year's golf tournament that was scheduled for next weekend. They hope to reschedule it in the Spring of 2021. If you have already paid for a sponsorship, it will roll over to the tournament play. (Contributed Photo).

grad. It was also the days of rotary phones and party lines. There were certain times my father would call my mother. I needed these clearly. Yes, searching the phone, she would hang up with questions before settling into a conversation. As I reached the little house, her laughter rumbled through the room. She could always make her laugh. You see, the letters were often on three weeks behind. The phone calls were proof that he was alive and well. The calls were great. After basic training, he was shipped to Germany. It was a couple of years before another assignment came along, and with it, his opportunity to come home for a week or two. A friend picked him up from the bus station and dropped him off in front of his house. He immediately as well. He opened the door, in full uniform with duffel bag slung across his shoulder. My dad entered our down the driveway, stepped and let her have her moment. He dropped his bag, as she hugged him. "God loves you, Jesus, and I'll be here for you." She looked at the person in front of her. She hugged him again and then stepped to the porch. She was crying. Tears of the head and pointed down. Light to carry the day.

Senior Center Fights Back It's been more than five months since the coronavirus struck the United States. Many groups and civic organizations closed their doors to safety concerns. Now groups are looking to restart, but it's not easy. The Chattooga Senior Center came up with two novel ideas. They held a "Keep Sleepy Buggs" game where seniors socially distanced themselves at the parking lot and played Buggs. She Director Jovon Hickman looks on as Leah Ward shows Buggs numbers. Politics Blocking Progress On Coronavirus Aid Measure

By DAVE WILLIAMS News Writer Capital Beat News Service ATLANTA — The federal Paycheck Protection Program (PPP) has given the economy a critical boost by letting financially struggling small businesses keep their employees. U.S. Sen. David Perdue, R-Ga., said Thursday.

Perdue said the PPP — part of the Coronavirus Aid, Relief and Economic Security (CARES) Act Congress passed back in March — saved about 1.2 million jobs in Georgia through loans to small businesses averaging \$100,000.

Perdue said the PPP — part of the Coronavirus Aid, Relief and Economic Security (CARES) Act Congress passed back in March — saved about 1.2 million jobs in Georgia through loans to small businesses averaging \$100,000.

PUBLIC HEARING NOTICE CHATTOOGA COUNTY, TOWN OF LYLELY, CITY OF MELO, CITY OF SUMMERVILLE AND TOWN OF TRION UPDATE OF JOINT COMPREHENSIVE PLAN

Chattooga County and the Town of Lylely, City of Meigs, City of Summerville and Town of Trion share a Joint Comprehensive Plan. Under planning rules promulgated by the Georgia Department of Community Affairs effective on October 1, 2016, it is time to update the Plan document. This initial public hearing is being held to explain the process for the plan preparation and the opportunities for public participation in the development of the updated plan. The affected governments intend to appoint citizens to participate as part of a Steering Committee to work with planners for the plan preparation. In addition, broad citizen participation at every meeting related to the plan preparation is desirable and recommended.

The plan document, estimated for completion in draft originally set for November 2020 with granted extension through various requests by March 2021, will ultimately be submitted for review to the Northwest Georgia Regional Commission and the Georgia Department of Community Affairs. Plan approval originally set for February 20, 2021, granted extension through various requests by June 30, 2021 will allow the affected governments to extend their Qualified Local Government status, and each will therefore be eligible for State loans, grants, or permits for another five years.

The public hearing will be accessible online via Zoom Video Call and held in the Chattooga County Civic Center, 44 Highway 48, Summerville, Georgia, on Thursday, September 16, 2020, 11:00 a.m.

To Join Public Hearing Virtually, please visit https://zoom.us/join and enter the meeting ID and password below:
